Commission de Surveillance du Secteur Financier

FINLABO INVESTMENTS SICAV (the "Fund") is registered under Part I of the Luxembourg law of 17th December 2010 on collective investment undertakings, as amended (the "2010 Law").

The shares have not been registered under the United States Securities Act of 1933 and may not be offered directly or indirectly in the United States of America (including its territories and possessions) to nationals or residents thereof or to persons normally resident therein, or to any partnership or persons connected thereto unless pursuant to any applicable statute, rule or interpretation available under United States law.

U.S. Foreign Account Tax Compliance Requirements: Although the Fund will attempt to secure the compliance of its counterparties with FATCA rules and avoid imposition of the 30% withholding tax on its US source income, no assurance can be given that the Fund will be able to satisfy these obligations. If the Fund becomes subject to a withholding tax as a result of FATCA, the value of Shares held by all Shareholders of the Fund may be materially affected.

The distribution of this document in other jurisdictions may also be restricted; persons into whose possession this document comes are required to inform themselves about and to observe any such restrictions. This document does not constitute an offer by anyone in any jurisdiction in which such offer is not authorised or to any person to whom it is unlawful to make such offer.

Any information or representation given or made by any person which is not contained herein or in any other document which may be available for inspection by the public should be regarded as unauthorised and should accordingly not be relied upon. Neither the delivery of this Prospectus nor the offer, issue or sale of shares in the Fund shall under any circumstances constitute a representation that the information given in this Prospectus is correct as at any time subsequent to the date hereof.

The Board of Directors of the Fund accepts responsibility for the accuracy of the information contained in this Prospectus on the date of publication.

All references herein to times and hours are to Luxembourg local time.

All references herein to EUR are to Euro.

This Prospectus may be updated from time to time with significant amendments. Consequently, subscribers are advised to inquire with the Fund as to the publication of a more recent Prospectus.

It is recommended to subscribers to seek professional advice on the laws and regulations (such as those on taxation and exchange control) applicable to the subscription, purchase, holding and selling of shares in their place of origin, residence or domicile. This is especially applicable in the case of classes and sub-funds intended to institutional investors for which investors should qualify as such. Prior to applying, subscribers are recommended to make enquiries on whether the required criteria are met and whether their subscriptions can be taken into consideration.

Shareholders of the Fund (the "Shareholders") are informed that their personal data or information given in the subscription documents or otherwise in connection with an application to subscribe for shares, as well as details of their shareholding, will be stored in digital form and processed in compliance with the provisions of the Luxembourg Law of 2nd August 2002 on data protection as further described in the subscription documents.

GLOSSARY

The following summary is qualified in its entirety by reference to the more detailed information included elsewhere in this Prospectus.

<i>2010 Law</i>	The Luxembourg law of 17 th December 2010 on undertakings for collective investment, as amended.
<i>Articles of Incorporation</i>	The articles of incorporation of the Fund.
<i>Bank Business Day</i>	A full bank business day in Luxembourg.
<i>Board of Directors</i>	The Board of Directors of the Fund.
<i>Categories</i>	Each Class of Shares may be further sub-divided into two Categories of Shares, being Distribution shares and Accumulation shares, as further described under Section “ <i>Distribution policy</i> ”.
<i>Classes</i>	Pursuant to the Articles of Incorporation, the Board of Directors may decide to issue, within each Sub-Fund, separate classes of shares whose assets will be commonly invested but where a specific sales or redemption charge structure, fee structure, minimum investment amount, taxation or distribution policy may be applied.
<i>Conversion of Shares</i>	Unless specifically indicated to the contrary for any Sub-Fund/Classes of shares and subject to compliance with any eligibility conditions, Shareholders may at any time request conversion of their shares into shares of another existing Sub-Fund/Class of shares on the basis of the net asset values of the shares of both Sub-Funds/Classes of shares concerned, determined on the common applicable Valuation Day.
<i>Crystallization Principle</i>	Any accrued positive performance fee will be crystallized. When there are redemptions at the Fund level the proportion of the accrued fee applicable to the redemption will be crystallized, i.e. become payable (or will be written off) and cannot be eroded by future underperformance. As accrued performance fees are crystallized, the cumulative accrual will adjust with the payable

amount without any impact on the NAV. This approach to crystallization protects the interests of the Fund's shareholders.

CSSF *Commission de Surveillance du Secteur Financier* – The Luxembourg Supervisory Authority.

Custodian The assets of the Fund are held under the custody or control of BANQUE DE LUXEMBOURG S.A., 14, Boulevard Royal, L – 2449 Luxembourg, Grand-Duchy of Luxembourg.

Directive The Directive 2009/65/EC of 13th July 2009.

Eligible Market A Regulated Market in an Eligible State.

Eligible State Any Member State of the EU or any other state in Eastern and Western Europe, Asia, North and South America, Africa and Oceania.

EU The European Union.

FATCA Means the Foreign Account Tax Compliance Act such as enacted and adopted by the United States of America on March 18, 2010, requiring US individuals to report their financial accounts held outside of the United States and foreign financial institutions to report to the Internal Revenue Service, or the tax authority in their jurisdiction of domicile, information about their US clients;

FATF Financial Action Task Force (also referred to as Groupe d'Action Financière).

Fund FINLABO INVESTMENTS SICAV, an investment company organised under Luxembourg law as a société anonyme qualifying as a société d'investissement à capital variable ("SICAV"). It may comprise several Sub-Funds.

Investment Advisor The Management Company may appoint an investment advisor for one or all the Sub-Funds in order to advise and make recommendations regarding the selection of securities and other permitted assets to be acquired by any Sub-Fund in line with the investment policy of the relevant Sub-Fund.

Investment Manager The Management Company may delegate, under its supervision and ultimate responsibility, the portfolio management of part or all of the Sub-Funds to one or several investments managers, subject to the prior approval of the Luxembourg Supervisory

Authority.

<i>Issue of shares</i>	The Offering Price per share of each Sub-Fund will be the net asset value per share of such Sub-Fund determined on the applicable Valuation Day plus the applicable dealing charge.
<i>KiiD</i>	Key Investor Information Document
<i>Management Company</i>	Casa4Funds SA has been appointed as the management company of the Fund to be responsible on a day-to-day basis, under supervision of the Directors, for providing administration, marketing and investment management services in respect of all Sub-Funds.
<i>Member State</i>	A member state of the European Union.
<i>Minimum Initial Investment</i>	In relation with a first investment in a sub-fund/share class, minimum number of shares or amount to be subscribed by an investor, as specified in <i>Appendix I – Sub-Funds Features</i> .
<i>Redemption of shares</i>	Shareholders may at any time request redemption of their shares, at a price equal to the net asset value per share of the Sub-Fund concerned, determined on the applicable Valuation Day less any redemption fee as disclosed in the Section “ <i>Sub-Fund details</i> ” to this Prospectus for a specific Sub-Fund.
<i>Regulated Market</i>	A market within the meaning of Directive 2004/39/EC and any other market which is regulated, operates regularly and is recognised and open to the public.
<i>Shares</i>	Shares of each Sub-Fund are offered in registered form and all shares must be fully paid up. Fractions of shares will be issued up to 3 decimals. Shares may also be held through accounts maintained with clearing houses.
<i>Sub-Funds</i>	The Fund offers investors, within the same investment vehicle, a choice between several sub-funds which are distinguished mainly by their specific investment policy and/or by the currency in which they are denominated. The specifications of each Sub-Fund are described in the Section “ <i>Sub-Funds Details</i> ” and in Appendix I – Sub-Funds features to this Prospectus. The Board of Directors of the Fund may, at any time, decide the creation of further Sub-Funds and in such case, this Prospectus will be updated. Each Sub-Fund may have one or more classes of shares.

UCI	Undertaking for Collective Investment.
UCITS	Undertaking for Collective Investment in Transferable Securities.
Valuation Day	<p><i>The Valuation Day is the Bank Business Day on which the net asset value (NAV) is dated.</i></p> <p><i>The NAV is calculated as of the first Bank Business Day following the Valuation Day. The prices used are the last available on the Valuation Day.</i></p> <p><i>A Valuation Day for all Sub-Funds might be any day on which banks in Luxembourg are normally open for business unless otherwise defined in Appendix I – Sub-Funds features to this Prospectus for a specific Sub-Fund.</i></p> <p><i>The Board of Directors may in its absolute discretion amend the frequency of the Valuation Day for some or all of the Sub-Funds. In such case the Shareholders of the relevant Sub-Fund will be duly informed and Appendix I – Sub-Funds features to this Prospectus will be updated accordingly.</i></p>

Words or expressions used in the Prospectus that are not specifically defined in this Glossary shall have the same meaning as those defined in the 2010 Law.

THE FUND

FINLABO INVESTMENTS SICAV is an open-ended collective investment company in the form of a *société d'investissement à capital variable* established under the laws of the Grand-Duchy of Luxembourg, with an "umbrella" structure comprising different Sub-Funds. In accordance with the 2010 Law, a subscription of shares constitutes acceptance of all terms and provisions of the Articles of Incorporation. Within each Sub-Fund, and/or each Class of shares, the investor may select either the distribution of a dividend or the capitalisation of income by choosing between the Distribution shares and the Accumulation shares. Details on each Sub-Fund are disclosed in Appendix I – Sub-Funds features to this Prospectus.

MANAGEMENT AND ADMINISTRATION

1. Board of Directors

The appointed Directors are:

- Margherita Balerna Bommartini (Chairman)
- Alessandro Guzzini
- Anselmo Pallotta
- Alex Schmitt

The Directors of the Fund are responsible for its management and supervision including the determination of investment policies. They will review the operations of the Fund and of the Management Company.

2. Management Company

The Board of Directors of the Fund has appointed Casa4Funds SA as the Management Company to be responsible on a day-to-day basis, under supervision of the Directors, for providing administration, marketing and investment management services in respect of all Sub-Funds.

The Management Company may from time to time delegate all or some of the services it provides in respect of all Sub-Funds to one or more service providers. In case of such delegation, the Management Company shall supervise the activities of the service providers on a permanent basis.

The Management Company was incorporated as a "*société anonyme*" under the laws of the Grand Duchy of Luxembourg on 5th August 2005 and its articles of incorporation were published in the Mémorial on 21st December 2005. It also acts as Management Company to other Luxembourg undertakings for collective investment whose list shall be enclosed in the financial report of the Fund. Its subscribed share capital is EUR 1,274,720. The Management Company is approved as Management Company regulated by chapter 15 of the 2010 Law.

The Management Company shall ensure, amongst others, compliance of the Fund with the investment restrictions and their investment policy set forth in this Prospectus and the Articles of Incorporation.

The Management Company shall also send reports to the Directors on a monthly basis and inform each board member without delay of any non-compliance of the Fund with the investment restrictions.

The Management Company is registered with the U.S. Internal Revenue Service (the "IRS") as a "Sponsoring Entity" with a Global Intermediary Identification Number (GIIN) of 1A8VBE.00000.SP.442 and shall act as "Sponsoring Entity" for the Fund as regards FATCA compliance requirements.

The Management Company shall also act as Domiciliary Agent of the Fund.

3. Conflicts of Interest

The Management Company may from time to time act as management company or investment manager to other investment funds/clients and may act in other capacities in respect of such other investment funds or clients. It is therefore possible that the Management Company may, in the course of its business, have potential conflicts of interest with the Fund.

The Board of Directors of the Fund and/or the Management Company will (in the event that any conflict of interest actually arises) endeavour to ensure that such conflict is resolved fairly and in the best interests of the Fund.

The Fund may also invest in other investment funds which are managed by the Management Company or any of its affiliated entities. The directors of the Management Company may also be directors of investment funds and the interest of such investment funds and of the Fund could result in conflicts. Generally, there may be conflicts between the best interests of the Fund and the interests of affiliates of the Management Company in connection with the fees, commissions and other revenues derived from the Fund or investment funds. In the event where such a conflict arises, the directors of the Management Company will endeavour to ensure that it is resolved in a fair manner and in the best interests of the Fund.

4. Investment Managers

The Management Company may delegate, under its supervision and ultimate responsibility, the portfolio management of part or all of the Sub-Funds to one or several investments managers, subject to the prior approval of the Luxembourg Supervisory Authority.

FINLABO SIM S.p.A. has been designated Investment Manager of the Fund by means of an agreement dated 15th April 2011 with the Management Company, to provide day-to-day management of the Fund's investments, subject to the overall supervision and responsibility of the Management Company.

The Investment Manager is required to adhere strictly to the guidelines laid down by the Management Company. In particular, the Investment Manager is required to ensure that the assets of the Fund and each sub-fund are invested in a manner consistent with the Fund's and the sub-funds' investment restrictions and that cash belonging to the Fund and each sub-fund is invested in accordance with the guidelines laid down by the Directors and the Management Company.

FINLABO SIM S.P.A. is a company authorised and regulated by Banca d'Italia and Consob (Reference no: 245) (the *Commissione Nazionale per le Società e la Borsa* "Consob" is the public authority responsible for regulating the Italian financial markets) whose registered office is at Corso Persiani, 45, I-62019 Recanati (Italy).

5. Investment Advisors

The Management Company may appoint Investment Advisors to provide advisory services to one or several Sub-Fund(s).

The Investment Advisor(s) shall regularly assist the Management Company by giving advice and recommendations regarding the selection of securities and other permitted assets to be acquired by the Fund in line with the investment policy of the relevant Sub-Fund.

The Investment Advisor(s) shall act in a purely advisory capacity. The Management Company shall not be bound by any advice or recommendations provided by such Investment Advisor(s) and shall assume sole responsibility for all decisions taken acting on such advice and recommendations in the management of the Fund's assets.

Each of the appointed Investment Advisor may seek advice, at its own expense, for the investment of the Fund's assets, from any person or corporation which it may consider appropriate.

6. Distributors and Nominees

Distributors may be appointed for the purpose of assisting the Management Company in the distribution of the shares of the Fund in the countries in which they are marketed.

Certain Distributors may not offer all of the Sub-Funds/classes of shares or all of the subscription/redemption currencies to their customers. Customers are invited to consult their Distributor for further details.

Investors can subscribe Shares in a Sub-Fund directly from the Fund. Investors may also purchase Shares in a Sub-Fund by using the nominee services offered by the Distributors or by the Local Paying Agents. A Distributor or a Local Paying Agent then subscribes and holds the Shares as a nominee in its own name but for the account of the investor. The Distributor or Local Paying Agent then confirms the subscription of the Shares to the investor by means of a letter of confirmation. Distributors and Local Paying Agents that offer nominee services are either seated in countries that have ratified the resolutions adopted by the FATF or Groupe d'action financière internationale "GAFI") or execute transactions through a correspondent bank seated in a FATF country. Investors who use a nominee service may issue instructions to the nominee regarding the exercise of votes conferred by their Shares as well as request direct ownership by submitting an appropriate request in writing to the relevant Distributor or Local Paying Agent offering the Nominee-Service.

The Fund draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Fund, notably the right to participate in general shareholders' meetings, if the investor is registered himself and in his own name in the shareholders' register of the Fund. In cases where an investor invests in the Fund through an intermediary investing into the Fund in his own name but on behalf of the investor, it may not always be possible for the investor to exercise

certain shareholder rights directly against the Fund. Investors are advised to take advice on their rights.

A list of the Distributors and Nominee shall be at disposal at the Fund registered office.

Any Investor shall self-certify its FATCA status to the Fund (or its delegates) via the forms prescribed by the FATCA regulations in force in the relevant jurisdiction (e.g. through the W8, W9 or equivalent filing forms) to be renewed regularly or provide the Fund (or its delegates) with their GIIN numbers if the Investors are FFIs. The Investors shall inform the Fund (or its delegates) of a change of circumstances in their FATCA status immediately in writing in order to ensure correct reporting.

It is the responsibility of the Nominee to identify its clients for FATCA purposes.

The Investors/Distributors that either have not properly documented their FATCA status as requested or have refused to disclose such a FATCA status within tax legally prescribed timeframe may be classified as “recalcitrant” and be subject to a reporting towards tax or governmental authorities and may suffer potential withholding tax.

If you have any doubt on the possible implications of FATCA on the Fund or yourself, you should seek independent professional advice. You are strongly recommended to seek independent advice from your own qualified U.S. tax advisor if you have queries related to FATCA or if you wish to know more about FATCA and its effect on you.

7. Custodian

Pursuant to an agreement dated as of 20th April 2010, BANQUE DE LUXEMBOURG has been appointed as custodian of all of the Fund's assets, comprising securities, money market instruments, cash and other assets. It may entrust the physical custody of securities and other assets, mainly securities traded abroad, listed on a foreign stock market or accepted by clearing institutions for their transactions, to such institutions or to one or more of its banking correspondents.

The assets will be held either directly or, under its responsibility, through nominees, agents or delegates of the Custodian.

BANQUE DE LUXEMBOURG is a public limited company, with registered office at 14, Boulevard Royal, L-2449 Luxembourg, RCS Luxembourg n° B 5310. It is engaged in banking activities since its incorporation.

Upon instructions of the Fund, the Custodian will execute all financial and foreign exchange transactions and provide all banking facilities. Moreover, the Custodian shall:

- a) Ensure that the sale, issue, redemption and cancellation of shares effected by or on behalf of the Fund are carried out in accordance with the 2010 Law and the Articles of Incorporation of the Fund;

- b) Ensure that in transactions involving the assets of the Fund, the consideration is remitted to it within the usual time limits;
- c) Ensure that the income of the Fund is applied in accordance with its Articles of Incorporation.

8. Registrar and Transfer and Administrative Agent

Pursuant to an agreement dated as of 20th April 2010, the Management Company appointed EUROPEAN FUND ADMINISTRATION (“EFA”), having its registered office at 2, rue d’Alsace, L-1122 Luxembourg, Grand Duchy of Luxembourg as Registrar and Transfer and Administrative Agent and is responsible for the central administration of the Fund and in particular for the processing of the issue, redemption and conversion of Shares, the determination of the net asset value of the Shares in each Sub-Fund and for the maintenance of accounting records.

EFA is empowered to delegate, under its full responsibility, all or part of its duties as Administrative Agent to a third Luxembourg entity with the prior consent of the Management Company.

INVESTMENT POLICY AND OBJECTIVES

The Fund's investment objective is long-term capital appreciation which it will seek to achieve by investing in transferable securities, debt obligations and money market instruments admitted to or dealt in on a regulated market in an Eligible Market, whether denominated in Euro or in any international currencies. The Fund has also the investment objective to maximise the investment return by investing in a portfolio of fixed and floating income securities and asset backed transferable debt obligations of public, mixed or private entities and corporations. There can be no assurance that the Fund's investment objectives will be achieved.

In the general pursuit of obtaining a high level of return and capital appreciation, efficient portfolio management techniques may be employed to the extent permitted by the investment and borrowing restrictions stipulated by the Board of Directors.

SHAREHOLDERS SHOULD BE AWARE THAT THE USE OF EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES MAY ENTAIL CERTAIN RISKS WHICH MAY AFFECT THE NET ASSET VALUE OF THE SUB-FUNDS.

The Sub-Funds may from time to time also hold, on an ancillary basis, cash reserves or include other permitted assets with a short remaining maturity, especially in times when rising interest rates are expected.

A large part of the assets shall be invested in securities which are issued or guaranteed by governments and/or their agencies, supranational issuers or prime corporate issuers.

More or less stringent rating requirements may be applicable to some Sub-Funds as disclosed in their specific investment policies. Please refer to the description of the investment policy of each Sub-Fund in the Section Sub-Funds details to this Prospectus for details.

The historical performance of the Sub-Funds will be published in the KiiD for each Sub-Fund. Past performance is not necessarily indicative of future results.

The specific investment policy of each Sub-Fund is described in the Section Sub-Funds details to this Prospectus.

RISK FACTORS

Equity Risk

While equities have historically been a leading choice of long-term investors, the fluctuations in their prices can sometimes be exacerbated in the short-term.

Because equity securities represent ownership in their issuers, prices of these securities can suffer for such reasons as poor management, shrinking product demand and other business risks.

Many factors can affect equity market performance: economic, political and business news can influence market-wide trends, over the short term as well as the long term.

Investing in Fixed Income Securities

Investment in fixed income securities is subject to interest rate, sector, security and credit risks. Lower-rated securities generally tend to reflect short-term corporate and market developments to a greater extent than higher-rated securities which react primarily to fluctuations in the general level of interest rates. There are fewer investors in lower-rated securities, and it may be harder to buy and sell securities at an optimum time.

The volume of transactions effected in certain European bond markets may be appreciably below that of the world's largest markets, such as the United States. Accordingly, a Sub-Fund's investments in such markets may be less liquid and their prices may be more volatile than comparable investments in securities trading in markets with larger trading volumes. Moreover, the settlement periods in certain markets may be longer than in others which may affect portfolio liquidity.

Investment in Financial Derivative Instruments

Investment in Warrants

It should be noted that the inherent volatility of warrants should not be overlooked and will directly affect the net assets of the sub-funds concerned. The reason is that, although the use of warrants may generate higher profits than when investing in conventional shares, it may also lead to heavy losses made worse by leverage.

Credit Default Swaps

Credit default swap transactions may entail particular risks.

These transactions are used in order to eliminate a credit risk in respect of the issuer of a security, they imply that the Fund bears a counterparty risk in respect of the protection seller.

This risk is, however, mitigated by the fact that the Fund will only enter into credit default swap transactions with highly rated financial institutions.

Credit default swaps may present a risk of liquidity if the position must be liquidated before its maturity for any reason. The Fund will mitigate this risk by limiting in an appropriate manner the use of this type of transaction.

Finally, the valuation of credit default swaps may give rise to difficulties which traditionally occur in connection with the valuation of OTC contracts.

Futures and Options

The Fund may use options and futures on securities, indices and interest rates in order to achieve investment goals. Also, where appropriate, the Fund may hedge market and currency risks using futures, options or forward foreign exchange or currency contracts (for the risk related to the use of forward contracts please refer to the section below "*OTC Derivative Transactions*"). The Fund must comply with the limits set out below under Section *Investment and Borrowing Restrictions*.

Transactions in futures carry a high degree of risk. The amount of the initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders.

Transactions in options also carry a high degree of risk. Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obliged either to settle the option in cash or to acquire or deliver the underlying investment. If the option is "covered" by the seller holding a corresponding position in the underlying investment or a future on another option, the risk may be reduced.

OTC Derivative Transactions

Absence of regulation; counterparty default and lack of liquidity

In general, there is less governmental regulation and supervision of transactions in the OTC markets (in which forward and option contracts, credit default swaps, total return swaps and certain options on currencies and other derivative instruments are generally traded) than of transactions entered into on organised stock exchanges. In addition, many of the protections afforded to participants on some organised exchanges, such as the performance guarantee of an exchange clearinghouse, may not be available in connection with OTC transactions. Therefore, the Sub-Fund entering into OTC transactions will be subject to the risk that its direct counterparty will not perform its obligations under the transactions and that the Sub-Fund will sustain losses. The Sub-Fund will only enter into transactions with counterparties which it believes to be creditworthy, and may reduce the exposure incurred in connection with such transactions through the receipt of letters of credit or collateral from certain counterparties.

In addition, as the OTC market may be illiquid, it might not be possible to execute a transaction or liquidate a position at an attractive price.

Non-investment grade securities

Furthermore, for sub-funds whose policy allows for the investment in securities rated lower than BBB- (Standard & Poors), investors are warned that these securities are below investment grade and carry more risk, including greater price volatility and a higher default risk on the repayment of principal and the payment of interest than for higher grade securities. Moreover, certain unlisted or undervalued fixed income securities are highly speculative and entail considerable risk, and may be disputed when principal and interest payments fall due. Securities with a rating below BBB- (Standard & Poors), or comparable unlisted securities, are considered speculative and may be disputed when principal and interest payments fall due.

Investing in Emerging Countries

Investment in securities issued by issuers situated in or traded on markets situated in emerging countries involves risk factors and special considerations, including those which follow which may not be typically associated with investing in more developed markets. Political or economic change and instability may be more likely to occur and have a greater effect on the economies and markets of emerging countries. Adverse government policies, taxation, restrictions on foreign investment and on currency convertibility and repatriation, currency fluctuations and other developments in the laws and regulations of emerging countries in which investments may be made, including expropriation, nationalisation or other confiscation could result in loss to the Fund. By comparison with more developed securities markets, most emerging countries securities markets are comparatively small, less liquid and more volatile. In addition, settlement, clearing and registration procedures may be under developed enhancing the risks of error, fraud or default. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in emerging markets may not provide the same degree of investor information or protection as would generally apply to major markets.

Interest Rate Risk

Investment in debt securities or money market instruments is subject to interest rate risk.

A fixed income security's value will generally increase in value when interest rates fall and decrease in value when interest rates rise. Interest rate risk is the risk that such movements in interest rates will negatively affect a security's value or, in a sub-fund's case, its net asset value. Fixed income securities with longer-term maturities tend to be more sensitive to interest changes than shorter-term securities. As a result, longer-term securities tend to offer higher yields for this added risk.

While changes in interest rates may affect a sub-fund's interest income, such changes may positively or negatively affect the net asset value of the sub-fund's shares on a daily basis.

Currency Risk

Since the securities held by a sub-fund may be denominated in currencies different from its base currency, the sub-fund may be affected favorably or unfavorably by changes in the exchange rates between such reference currency and other currencies. If the currency in which a security is denominated appreciates against the base currency, the price of the security could increase. Conversely, a decline in the exchange rate of the currency would adversely affect the price of the security.

Although a sub-fund may use hedging or other techniques in seeking to minimize its exposure to currency risk, it may not be possible or desirable to hedge against all currency risk exposure, nor is it guaranteed that a hedging technique will perform as anticipated.

Credit Risk

Credit risk, related to all fixed income securities as well as money market instruments, is the risk that an issuer will fail to make principal and interest payments when due. Issuers with higher credit risk typically offer higher yields for this added risk. Conversely, issuers with lower credit risk typically offer lower yields. Generally, government securities are considered to be the safest in terms of credit risk, while corporate debt, especially those with poorer credit ratings, have the highest credit risk. Changes in the financial condition of an issuer, changes in economic and political conditions in general, or specific to an issuer, are all the factors that may have an adverse impact on an issuer's credit quality and security values.

Hedged Classes

In the case where shares are hedged against the reference currency of a particular sub-fund, such hedging may, for technical reasons or due to market movements, not be complete and not cover the entire foreign exchange rate risk. There can be no guarantee that hedging strategies will be successful. Moreover, in case of hedging, the investors will not take advantage of any possible positive evolution of the foreign exchange rate.

Counterparty Risk

Also known as "default risk", it is the risk to each party of a contract that the counterparty will not live up to its contractual obligations. Counterparty risk as a risk to both parties and should be considered when evaluating a contract.

The Fund is exposed to counterparty risk when entering into Over the Counter ("OTC") derivatives contracts or into cash deposits.

Liquidity Risk

This is the risk of losing a certain amount of money when liquidating one or more positions in a portfolio. The loss is generated by the difference between the price at which the financial asset is marked and the price at which it can be sold.

Liquidity risk arises from situations in which a party interested in trading an asset cannot do it because nobody in the market wants to trade that asset. Liquidity risk becomes particularly important to parties

who are about to hold or currently hold an asset, since it affects their ability to trade.

Manifestation of liquidity risk is very different from a drop of price to zero. In case of a drop of an asset's price to zero, the market is saying that the asset is worthless. However, if one party cannot find another party interested in trading the asset, this can potentially be only a problem of the market participants with finding each other. This is why liquidity risk is usually found to be higher in emerging markets or low-volume markets.

Potential Risks associated with investing in Contingent Convertible instruments

Converted Convertible Contingent Capital Bonds (“CoCos”), it is a feature of such issues that a bondholder’s interest may be converted to equity, and the flexibility is retained to hold such securities following a conversion event.

Trigger level risk: trigger levels differ and determine exposure to conversion risk depending on the Common Equity Tier 1 distance to the trigger level.

Coupon cancellation: Coupon payments are entirely discretionary and may be cancelled by the issuer at any point, for any reason, and for any length of time.

Capital structure inversion risk: contrary to classic capital hierarchy, Cocos investors may suffer a loss of capital when equity holders do not.

Call extension risk: Cocos are issued as perpetual instruments, callable at predetermined levels only with the approval of the competent authority.

It cannot be assumed that the perpetual Cocos will be called on call date. Cocos are a form of permanent capital. The investor may not receive return of principal if expected on call date or indeed at any date.

Unknown risk: the structure of the instruments is innovative yet untested.

Yield/Valuation risk: investors have been drawn to the instrument as a result of the Cocos’ often attractive yield which may be reviewed as a complexity premium.

INVESTMENT AND BORROWING RESTRICTIONS

The Articles of Incorporation provide that the Board of Directors shall, based upon the principle of spreading of risks, determine the corporate and investment policy of the Fund and the investment and borrowing restrictions applicable, from time to time, to the investments of the Fund.

In order for the Fund to qualify as a UCITS under the 2010 Law and the Directive, the Board of Directors has decided that the following restrictions shall apply to the investments of the Fund and, as the case may be and unless otherwise specified for a Sub-Fund in the Section Sub-Funds details of this Prospectus, to the investments of each of the Sub-Funds:

- I. (1) The Fund, for each Sub-Fund, may invest in:
- a) transferable securities and money market instruments admitted to or dealt in on a regulated market within the meaning of Directive 2004/39/EC or dealt in on another market which operates regularly and is recognised and open to the public in a Member State of the European Union ("EU") or any other state in Eastern and Western Europe, Asia, North and South America, Africa and Oceania (an "Eligible Market");
 - b) recently issued transferable securities and money market instruments, provided that the terms of issue include an undertaking that application will be made for admission to official listing on an Eligible Market and such admission is secured within one year of the issue;
 - c) units of UCITS and/or other undertakings for collective investment ("other UCIs") within the meaning of Article 1, paragraph (2), points a) and b) of Directive 2009/65/EC, whether or not established in a Member State or not, provided that:
 - such other UCIs are authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in European Union law, and that cooperation between authorities is sufficiently ensured,
 - the level of protection for unitholders in such other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC,
 - the business of such other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,
 - no more than 10% of the assets of the UCITS or of the other UCIs, whose

- acquisition is contemplated, can, according to their management regulations or instruments of incorporation, in aggregate be invested in units of other UCITS or other UCIs;
- d) deposits with a credit institution which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in a non-Member State, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in European Union law;
- e) financial derivative instruments, including equivalent cash-settled instruments, dealt in on an Eligible Market and/or financial derivative instruments dealt in over-the-counter ("OTC derivatives"), provided that:
- the underlying consists of instruments covered by this section (I) (1), financial indices, interest rates, foreign exchange rates or currencies, in which the Sub-Fund may invest according to its investment objective;
 - the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the Luxembourg supervisory authority;
 - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund's initiative;
- f) money market instruments other than those dealt in on an Eligible Market, if the issuer or the issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that such instruments are:
- issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the EU or the European Investment Bank, a non Member State or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
 - issued by an undertaking any securities of which are dealt in on Eligible Markets, or
 - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by European Union law, or by an establishment which is subject to and complies with prudential rules considered by the Luxembourg regulator to be at least stringent as those laid down by Community law; or
 - issued by other bodies belonging to the categories approved by the Luxembourg supervisory authority provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least EUR 10 million and which presents and publishes its annual accounts in accordance with directive 78/660/EEC, is an entity which, within a group of companies

which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

- (2) In addition, the Fund may invest a maximum of 10% of the net assets of any Sub-Fund in transferable securities and money market instruments other than those referred to under I (1) above.

II. The Fund may hold ancillary liquid assets.

III. a) (i) The Fund will invest no more than 10% of the net assets of any Sub-Fund in transferable securities or money market instruments issued by the same body.

(ii) The Fund may not invest more than 20% of the net assets of any Sub-Fund in deposits made with the same body. The risk exposure of a Sub-Fund to a counterparty in an OTC derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to in I. (1) d) above or 5% of its net assets in other cases.

b) Moreover, where the Fund holds, on behalf of a Sub-Fund, investments in transferable securities and money market instruments of issuing bodies which individually exceed 5% of the net assets of such Sub-Fund, the total of all such investments must not account for more than 40% of the total net assets of such Sub-Fund.

This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

Notwithstanding the individual limits laid down in paragraph a), the Fund may not combine for each Sub-Fund, where this would lead to investment of more than 20% of the Sub-Fund's assets in a single body, any of the following:

- investments in transferable securities or money market instruments issued by that body,
- deposits made with that body, and/or
- exposures arising from OTC derivative transactions undertaken with that body.

c) The limit of 10% laid down in sub-paragraph a) (i) above is increased to a maximum of 35% in respect of transferable securities or money market instruments which are issued or guaranteed by a Member State, its public local authorities, or by another state in Eastern and Western Europe, Asia, North and South America, Africa and Oceania or by public international bodies of which one or more Member States are members.

d) The limit of 10% laid down in sub-paragraph a) (i) is increased to 25% for certain bonds when they are issued by a credit institution which has its registered office in a Member State and is subject by law, to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds

must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the repayment of principal and payment of the accrued interest.

If a Sub-Fund invests more than 5% of its net assets in the bonds referred to in this sub-paragraph and issued by a single issuer, the total value of such investments may not exceed 80% of the net assets of the Sub-Fund.

- e) The transferable securities and money market instruments referred to in paragraphs c) and d) shall not be included in the calculation of the limit of 40% in paragraph b).

The limits set out in sub-paragraphs a), b), c) and d) may not be combined and, accordingly, investments in transferable securities or money market instruments issued by the same issuing body, in deposits or in derivative instruments effected with the same issuing body may not, in any event, exceed a total of 35% of any Sub-Fund's net assets.

Companies which are part of the same group for the purposes of the establishment of consolidated accounts, as defined in accordance with directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in this paragraph III).

The Fund may cumulatively invest up to 20% of the net assets of a Sub-Fund in transferable securities and money market instruments within the same group.

- f) **Notwithstanding the above provisions, the Fund is authorised to invest up to 100% of the net assets of any Sub-Fund, in accordance with the principle of risk spreading, in transferable securities and money market instruments issued or guaranteed by a Member State, by its local authorities or agencies, or by another member State of the OECD or by public international bodies of which one or more Member States are members, provided that the sub-fund's Shareholders benefit from sufficient protection and that such Sub-Fund must hold securities from at least six different issues and securities from one issue do not account for more than 30% of the net assets of such Sub-Fund.**

- IV.
- a) Without prejudice to the limits laid down in paragraph V., the limits provided in paragraph III. a) to e) are raised to a maximum of 20% for investments in shares and/or debt securities issued by the same body if the aim of the investment policy of a Sub-Fund is to replicate the composition of a certain stock or debt securities index which is recognised by the CSSF provided that it is sufficiently diversified, represents an adequate benchmark for the market to which it refers, is published in an appropriate manner and disclosed in the relevant Sub-Fund's investment policy.
- b) The limit laid down in paragraph a) is raised to 35% where this proves to be justified by exceptional market conditions, in particular on regulated markets

within the meaning of Directive 2009/65/EC and any other market which is regulated, operates regularly and is recognised and open to the public ("Regulated Markets") where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

- V.
- a) The Fund may not acquire shares carrying voting rights which should enable it to exercise significant influence over the management of an issuing body.
 - b) The Fund may acquire no more than:
 - 10% of the non-voting shares of the same issuer;
 - 10% of the debt securities of the same issuer;
 - 25% of the units of the same UCITS or other UCI within the meaning of Article 2, paragraph (2) of the 2010 Law;
 - 10% of the money market instruments of the same issuer.

These limits under second and third indents may be disregarded at the time of acquisition, if at that time the gross amount of debt securities or of the money market instruments or the net amount of the instruments in issue cannot be calculated.

- c) The provisions of paragraph V. shall not be applicable to transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities or by any other Eligible State, or issued by public international bodies of which one or more Member States are members.

The provisions of this paragraph V. are also waived as regards:

- shares held by the Fund in the capital of a company incorporated in a non-Member State of the EU which invests its assets mainly in the securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State provided that the investment policy of the company from the third country complies with the limits laid down in paragraph III. a) to e), V. a) and b) and VI
- shares held by one or more investment companies in the capital of subsidiary companies, which carry on only the business of management, advice or marketing in the country where the subsidiary is established, in regard to the repurchase of units at the request of unitholders exclusively on its or their behalf.

- VI.
- a) The Fund may invest up to 100% of any of its sub-fund's net assets in units of UCITS and/or other UCIs referred to in paragraph I) (1) c), provided that no more than 20% of the sub-fund's net assets are invested in the units of a single UCITS or other UCI and subject to the limits set by the 2010 Law. For the purpose of the application of this investment limit, each compartment of a UCITS and/or UCI with multiple compartments within the meaning of Article 181 of the 2010 Law is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured.
 - b) The underlying investments held by the UCITS or other UCIs in which the Fund invests

do not have to be considered for the purpose of the investment restrictions set forth under III. a) to e) above.

- c) When the Fund invests in the units of UCITS and/or other UCIs linked to the Fund by common management or control within the meaning of Article 46, paragraph (3) of the 2010 Law, no subscription or redemption fees may be charged to the Fund on account of its investment in the units of such other UCITS and/or UCIs.

In respect of a Sub-Fund's investments in UCITS and other UCIs linked to the Fund as described in the preceding paragraph, the management fee (excluding any Performance Fee, if any) charged to such Sub-Fund and each of the UCITS or other UCIs concerned shall not exceed 3% of the relevant net assets under management. The Fund will indicate in its annual report the total management fees charged both to the relevant Sub-Fund and to the UCITS and other UCIs in which such Sub-Fund has invested during the relevant period.

- d) The Fund may acquire no more than 25% of the units/shares of the same UCITS or other UCI. This limit may be disregarded at the time of acquisition if at that time the gross amount of the units in issue cannot be calculated. In case of a UCITS or other UCI with multiple compartments, this restriction is applicable by reference to all units/shares issued by the UCITS or other UCI concerned, all compartments combined.
- e) The Fund may not, in aggregate, invest more than 30% of any of its sub-fund's net assets in units of UCIs other than UCITS.

- VII. The Fund shall ensure for each Sub-Fund that the global exposure relating to derivative instruments does not exceed the total net value of the relevant Sub-Fund.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. This shall also apply to the following subparagraphs.

If the Fund invests in financial derivative instruments, the exposure to the underlying assets may not exceed in aggregate the investment limits laid down in paragraph III. a) to e) above. When the Fund invests in index-based financial derivative instruments, these investments are not required to be combined to the limits laid down in paragraph III. a) to e).

When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of this paragraph VII.

- VIII. a) The Fund may not borrow for the account of any Sub-Fund amounts in excess of 10% of the net assets of that Sub-Fund, any such borrowings to be from banks and to be effected only on a temporary basis, provided that the Fund may acquire foreign currencies by means of back to back loans;
- b) The Fund may not grant loans to or act as guarantor on behalf of third parties. This restriction shall not prevent the Fund from acquiring transferable securities, money market instruments or other financial instruments referred to in I. (1) c), e) and f) which are not fully paid.
- c) The Fund may not carry out uncovered sales of transferable securities, money market instruments or other financial instruments.

- d) The Fund may only acquire movable or immovable property which is essential for the direct pursuit of its business, provided that such investment does not represent more than 10% of its assets.
 - e) Where the Fund is authorised to borrow under points a) and d), that borrowing shall not exceed 15% of its assets in total.
 - f) The Fund may not acquire either precious metals or certificates representing them.
- IX.
- a) The Fund needs not comply with the limits laid down in this Section when exercising subscription rights attaching to transferable securities or money market instruments which form part of its assets. While ensuring observance of the principle of risk spreading, recently created Sub-Funds may derogate from paragraphs III., IV. and VI. a), b) and c) for a period of six months following the date of their creation.
 - b) If the limits referred to in paragraph a) are exceeded for reasons beyond the control of the Fund or as a result of the exercise of subscription rights, it must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interest of its shareholders.
 - c) To the extent that an issuer is a legal entity with multiple compartments where the assets of the compartment are exclusively reserved to the investors in such compartment and to those creditors whose claim has arisen in connection with the creation, operation or liquidation of that compartment, each compartment is to be considered as a separate issuer for the purpose of the application of the risk spreading rules set out in paragraphs III. a) to e), IV. and VI.

TECHNIQUES AND INSTRUMENTS

The Fund is authorised for each sub-fund to use techniques and instruments on transferable securities, money market instruments, currencies and other eligible assets for the purpose of hedging or efficient portfolio management. If a sub-fund uses such techniques and instruments for investment purposes, detailed information on such techniques and instruments will be disclosed in the investment policy of the relevant sub-fund.

Each sub-fund is therefore in particular authorised to carry out transactions involving financial derivative instruments and other financial techniques and instruments (in particular swaps on indexes, currencies and transferable securities and money market instruments, futures and options on securities, currencies or indexes), as will be described in the description of the relevant sub-fund.

The success of the strategies employed by the sub-funds cannot be guaranteed.

Sub-funds using these techniques and instruments assume risks and incur costs, they would not have assumed or incurred, if they had not used such techniques.

The use of derivatives will cause a risk due to leverage. Considering the maximum of 10% of its net assets that a sub-fund may borrow, as indicated under Section “*Investment Restrictions*” VIII. a) above, the overall exposure of any sub-fund must not exceed 210% of the sub-fund’s net assets.

The investor's attention is further drawn to the increased risk of volatility generated by sub-funds using financial derivative instruments and other financial techniques and instruments for other purposes than hedging. If the Investment Managers forecast incorrect trends for securities, currency and interest rate markets, the affected sub-fund may be worse off than if no such strategy had been used.

In using derivatives, each sub-fund may carry out over-the-counter – OTC – transactions with highly-rated banks or brokers specialised in this area acting as counterparties.

- (1) The Fund may, under the observance of the provisions of the circular CSSF 08/356, enter into securities lending and borrowing transactions provided it complies with the following rules:
 - (i) The Fund may only lend or borrow securities within a standardised system organised by a recognised securities clearing institution or by a highly rated financial institution specialised in this type of transaction. The counterparty must further be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by European Community Law.
 - (ii) In relation to its lending transactions, the Fund shall receive a guarantee of a value which, at the conclusion and during the lifetime of the agreement, must be at least equal to 90% of the global valuation (interests, dividends and other eventual rights included) of the securities lent.

Such guarantee is given in the form of cash and/or securities issued or guaranteed by a Member State of the OECD, by its regional authorities or by supranational institutions and organisations with EU, regional or global scope, and is frozen in an account in the name of the Fund until the lending contract expires. More specifically, the guarantee could take the form of:

- Liquidity and Cash deposits (defined within Directive 2007/16/EC of 19 March 2007 implementing Council Directive 85/611/EEC) or financial instruments equivalent to cash
 - Bond issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or world-wide scope as well as bonds issued by non-governmental issuers offering an adequate liquidity with a minimum rating of BBB+ (Investment Grade).
 - Shares and convertible bonds which are comprised in a main index
 - Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent
- (iii) Securities lending transactions may not be for a period exceeding 30 days, nor exceed 50% of the aggregate market value of the securities in the portfolio of the sub-fund concerned. This limit does not apply when the Fund has the right to terminate the contract at any time and obtain restitution of the securities lent.
- (iv) Securities borrowing transactions may not be for a period exceeding 30 days, nor exceed 50% of the aggregate market value of the securities in the portfolio of the sub-fund concerned.
- (v) The Fund may only engage in securities borrowing transactions in the following exceptional circumstances: (x) when the Fund is engaged in the sale of portfolio securities at a time when said securities are being registered with a government authority and therefore are not available; (y) when securities which have been lent are not returned on time; and (z) in order to avoid default of a promised delivery of securities if the Custodian fails to perform its obligation to deliver the securities in question.
- (vi) (The net exposures (i.e. the exposures of the Fund less the collateral received by the Fund) to a counterparty arising from securities lending transactions or reverse repurchase/repurchase agreement transactions (as described below under (2)) shall be taken into account in the 20% limit provided for in Article 43(2) of the 2010 Law pursuant to point 2 of Box 27 of ESMA Guidelines 10-788.
- (2) The Fund may, under the observance of the provisions of the circular CSSF 08/356, on an ancillary basis and in order to tweak its performance, enter into repurchase agreements which consist in the purchase and sale of securities whereby the terms of the agreement give the seller the right or the obligation to repurchase the securities from the purchaser at a price and a time agreed by the two parties at the conclusion of the agreement.

The Fund may act as either purchaser or seller in repurchase transactions. However, its entering into such agreements is subject to the following rules:

- (i) The Fund may only purchase or sell securities if its counterparty in the repurchase transaction is a highly-rated financial institution specialised in this type of transaction. The counterparty must further be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by European Community Law.
 - (ii) Throughout the duration of a repurchase agreement, the Fund may not sell the securities that are the subject of the agreement before the counterparty has exercised its right to repurchase the securities, or before the deadline for repurchase has expired.
 - (iii) It must maintain the incidence of repurchase agreements at a level that shall allow it at all times to meet its repurchase commitments.
 - (iv) The net exposures (i.e. the exposures of the Fund less the collateral received by the Fund) to a counterparty arising from securities lending transactions or reverse repurchase/repurchase agreement transactions (as described above under (1)) shall be taken into account in the 20% limit provided for in Article 43(2) of the 2010 Law pursuant to point 2 of Box 27 of ESMA Guidelines 10-788.
- (3) The Fund may also, in accordance with the provisions set out below, invest in swap contracts.
- (i) The Fund may enter into equity swap transactions which consist of contractually paying out (or receiving) to (from) the swap counterparty:
 - i) a positive or negative performance of one security, a basket of securities, a stock exchange index, a benchmark or a financial index;
 - ii) an interest rate, either floating or fixed;
 - iii) a foreign exchange rate; or
 - iv) a combination of any of the above;

against the payment of an interest rate either floating or fixed. There is no exchange of principal in the equity swap and the Fund will not hold any security, but the Fund will receive all the economies of owning securities, such as dividend income. The underlying of the swap transactions entered into by the Fund will be indicated in the description of the investment policy of each Sub-Fund in the Section Sub-Funds Details of this Prospectus.

The Fund may not enter into equity swap transactions unless:

- i) its counterpart is a financial institution of good reputation specialised in this type of transaction;
- ii) it ensures that the level of its exposure to the equity swap is such that it is able, at all times, to have sufficient liquid assets available to meet its redemption obligations and the commitments arising out of such transactions;
- iii) the underlying assets performance referred to under the equity swap agreement is in compliance with the investment policy of the relevant Sub-Fund entering into such transaction.

The total commitment arising from equity swap transactions of a particular Sub-Fund shall be the market value of the underlying assets used for such transactions at inception.

The net exposure of equity swap transactions in conjunction with all exposures resulting from the use of options, interest rate swaps and financial futures may not in respect of each Sub-Fund exceed at any time the Net Asset Value of such Sub-Fund.

The equity swap transactions to be entered into will be marked to market daily using the market value of the underlying assets used for the transaction in accordance with the terms of the swap agreement. Typically investments in equity swap transactions will be made in order to adjust regional exposures, limit settlement and custodian risks as well as repatriation risk in certain markets and to avoid costs and expenses related to direct investments or sale of assets in certain jurisdictions as well as foreign exchange restrictions.

- (ii) The Fund may use credit default swaps. A credit default swap is a bilateral financial contract in which one counterpart (the protection buyer) pays a periodic fee in return for a contingent payment by the protection seller following a credit event of a reference issuer. The protection buyer must either sell particular obligations issued by the reference issuer for its par value (or some other designated reference or strike price) when a credit event occurs or receive a cash settlement based on the difference between the market price and such reference price. A credit event is commonly defined as bankruptcy, insolvency, receivership, material adverse restructuring of debt, or failure to meet payment obligations when due. The ISDA have produced standardised documentation for these transactions under the umbrella of its ISDA Master Agreement.

The Fund may use credit default swaps in order to hedge the specific credit risk of some of the issuers in its portfolio by buying protection.

In addition, the Fund may, provided it is in its exclusive interest, buy protection under credit default swaps without holding the underlying assets provided that the aggregate premiums paid together with the present value of the aggregate premiums still payable in connection with credit default swap purchased together with the amount of the aggregate of premiums paid relating to the purchase of options on transferable securities or on financial instruments for a purpose other than hedging, may not, at any time, exceed 15% of the net assets of the relevant sub-fund.

Provided it is in its exclusive interest, the Fund may also sell protection under credit default swaps in order to acquire a specific credit exposure. In addition, the aggregate commitments in connection with such credit default swap sold together with the amount of the commitments relating to the purchase and sale of futures and option contracts on any kind of financial instruments and the commitments relating to the sale of call and put options on transferable securities may not, at any time, exceed the value of the net assets of the relevant Sub-Fund.

The Fund will only enter into credit default swap transactions with highly rated financial institutions specialised in this type of transaction and only in accordance with the standard terms

laid down by the ISDA. Also, the Fund will only accept obligations upon a credit event that are within the investment policy of the relevant sub-fund.

The Fund will ensure it can dispose of the necessary assets at any time in order to pay redemption proceeds resulting from redemption requests and to meet its obligations resulting from credit default swaps and other techniques and instruments.

The aggregate commitments of all credit default swap transactions will not exceed 20% of the net assets of any sub-fund provided that all swaps will be fully funded.

Furthermore, the Fund shall comply with the requirements provided by the provisions laid down in the Circular CSSF 14/592 and set out below when entering into management of collateral for OTC financial derivative transactions and efficient portfolio management techniques ((and which modify the Box 26 of the existing guidelines on Risk Measurement and Calculation of Global Exposure and Counterparty Risk for UCITS (Ref. CESR/10-788))):

The risk exposures to a counterparty arising from OTC financial derivative transactions and efficient portfolio management techniques should be combined when calculating the counterparty risk limits of Article 52 of Directive 2009/65/EC.

All assets received by the Sub-Fund in the context of efficient portfolio management techniques should be considered as collateral and should comply with the criteria laid down in paragraph below.

Where a Sub-Fund enters into OTC financial derivative transactions and efficient portfolio management techniques, all collateral used to reduce counterparty risk exposure should comply with the following criteria at all times:

- a) Liquidity – any collateral received other than cash should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of Article 56 of the Directive 2009/65/EC.
- b) Valuation – collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place
- c) Issuer credit quality – collateral received should be of high quality.
- d) Correlation – the collateral received by the Sub-Fund should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- e) Collateral diversification (asset concentration) – collateral should be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Sub-Fund receives from a counterparty of efficient portfolio management and over-the-counter financial derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When the Sub-Fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20%

limit of exposure to a single issuer.

By way of derogation from this sub-paragraph, a UCITS may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. Such a UCITS should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the UCITS' net asset value. UCITS that intend to be fully collateralized in securities issued or guaranteed by a Member State should disclose this fact in the prospectus of the UCITS. UCITS should also identify the Member States, local authorities, or public international bodies issuing or guaranteeing securities which they are able to accept as collateral for more than 20% of their net asset value.

f) Risks linked to the management of collateral, such as operational and legal risks, should be identified, managed and mitigated by the risk management process.

g) Where there is a title transfer, the collateral received should be held by the depositary of the Sub-Fund. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.

h) Collateral received should be capable of being fully enforced by the UCITS at any time without reference to or approval from the counterparty.

i) Non-cash collateral received should not be sold, re-invested or pledged.

j) Cash collateral received should only be:

- placed on deposit with entities prescribed in Article 50(f) of the UCITS Directive;
- invested in high-quality government bonds;
- used for the purpose of reverse repo transactions provided the transactions are with credit institutions subject to prudential supervision and the UCITS is able to recall at any time the full amount of cash on accrued basis;
- invested in short-term money market funds as defined in the Guidelines on a Common Definition of European Money Market Funds.

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral.

For each of these financial instruments, the following discount rates will be applied:

- Cash in a currency other than the currency of exposure: **10%**
- Shares, convertible bonds and shares of a UCI : **20%**
- Debt instruments at least investment grade : **15%**

The Risk Management makes sure that the collateral used to mitigate counterparty risk is not sold, reinvested or pledged.

A Sub-Fund receiving collateral for at least 30% of its assets should have an appropriate stress testing policy in place to ensure regular stress tests are carried out under normal and exceptional liquidity conditions to enable the Sub-Fund to assess the liquidity risk attached to the collateral. The liquidity stress testing policy should at least prescribe the following:

- Design of stress test scenario analysis including calibration, certification & sensitivity analysis;
- Empirical approach to impact assessment, including back-testing of liquidity risk estimates;
- Reporting frequency and limit/loss tolerance threshold; and
- Mitigation actions to reduce loss including haircut policy and gap risk protection.

A Sub-Fund should have in place a clear haircut policy adapted for each class of assets received as collateral.

When devising the haircut policy, a Sub-Fund should take into account the characteristics of the assets such as the credit standing or the price volatility, as well as the outcome of the stress tests performed. This policy should be documented and should justify each decision to apply a specific haircut, or to refrain from applying any haircut, to a certain class of assets.

The prospectus should also clearly inform investors of the collateral policy of the Fund. This should include permitted types of collateral, level of collateral required and haircut policy and, in the case of cash collateral, re-investment policy (including the risks arising from the re-investment policy).

INVESTMENT IN ONE OR MORE OTHER SUB-FUNDS OF THE FUND

Pursuant to Article 181 (8) of the 2010 Law, any sub-fund of the Fund may, subject to the conditions provided for in the Articles of Incorporation, subscribe, acquire and/or hold securities to be issued or issued by one or more sub-funds of the Fund without the Fund being subject to the requirements of the law of 10 August 1915 on commercial companies, as amended, with respect to the subscription, acquisition and/or the holding by a company of its own shares, under the conditions however that:

- the target Sub-Fund does not, in turn, invest in the Sub-Fund invested in this target Sub-Fund; and
- no more than 10% of the assets that the target Sub-Funds whose acquisition is contemplated may be invested pursuant to the Instruments of Incorporation in shares of other target Sub-Funds of the Fund; and
- voting rights, if any, attaching to the relevant securities are suspended for as long as they are held by the Sub-Fund concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- in any event, for as long as these securities are held by the Fund, their value will not be taken into consideration for the calculation of the net assets of the Fund for the purposes of verifying the minimum threshold of the net assets imposed by the 2010 Law; and
- there is no duplication of management, subscription or repurchase fees between those at the level of the Sub-Fund of the Fund having invested in the target Sub-Fund, and this target Sub-Fund.

RISK MANAGEMENT PROCESS

The Management Company, on behalf of the Fund, will employ a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each Sub-Fund. The Management Company will employ, if applicable, a process for accurate and independent assessment of the value of any OTC derivative instruments.

As part of the RMP within the meaning of the applicable CSSF Circular 11/512 and the ESMA Guidelines 10-788, the Management Company will calculate the global exposure of each Sub-Fund on a daily basis despite of NAV frequency. This global exposure, depending on the risk profile of each sub-fund could be calculated using the Commitment Approach or the Value at Risk Approach (the “VaR Approach”), either relative or absolute.

The Commitment approach is defined as the sum of the absolute value of the individual commitments of financial derivatives instruments, after taking into account possible effects of netting and hedging.

The VaR approach quantifies the maximum potential loss that a UCITS could suffer within a certain time horizon and a given level of confidence under normal market conditions. The Management Company shall use a one month (20 days) Historical VaR with one year of history and a confidence level of 99%.

The risk profile will be evaluated by the Risk Management department of the Management Company, the result of this evaluation will be communicated to the Board of the Fund that will confirm the approach chosen or propose a new one. More specifically, the selection of the approach will result from the investment policy and strategy of each Sub-Fund (including its use of financial derivative instruments).

The approach chosen for each Sub-Fund could be found in Appendix II – Sub-Funds Specific Risk Details of the present prospectus. In case of a VaR approach, the expected level of leverage as well as the benchmark or the appropriate mix of assets (if managed with a relative VaR approach) will be indicated. The expected level of leverage will be calculated as the sum of notionals but could be completed by the commitment approach.

SHARES

Within the meaning of Article 181 of the 2010 Law, the Fund may issue within each Sub-Fund one or more classes of Shares whose assets will be commonly invested pursuant to the specific investment policy of the Sub-Fund concerned but may differ, inter alia, in respect of specific sales and redemption charge structure, management charge structure, distribution policy, hedging policy or any other features as the Board of Directors shall from time to time determine in respect of each Sub-Fund.

Currently, the Board of Directors may decide to issue within each Sub-Fund, the four following Classes of shares as further described in Appendix I – Sub-Funds features to this Prospectus.

- Class R: available to retail investors ;
- Class P: available to retail shareholders subscribing through agents specifically authorized by the Board of Directors
- Class I: available to institutional investors ;
- Class L: All investors - Listed and tradable on *Borsa Italiana S.p.A (ETFplus market)*

In accordance with the above, the Shares are further sub-divided into two categories, Distribution Shares and Accumulation Shares, as further described under section ***Distribution Policy*** and detailed in Appendix I – Sub-Funds features to this Prospectus.

LISTING ON BORSA ITALIANA SPA – ETFPLUS MARKET

ETFplus is the regulated electronic market of *Borsa Italiana S.p.A* where it is possible to list UCITS in the meaning of the Directive, which have received Consob or Bank of Italy authorization and in the case of EU UCITS, have an authorization from the home supervisory authority and are duly registered for sale in Italy.

For the avoidance of any doubt, the Sub-Funds are not exchange traded fund (ETF) as further detailed under circular CSSF 14/592 on the *Guidelines of the European Securities and Markets Authority (ESMA) on ETFs and other UCITS issues*.

Shares classes L of the following Sub-Funds are compliant with *Borsa Italiana S.p.A* requirements and are therefore listed and tradable on the segment of the *ETFplus* market devoted to undertakings for collective investments:

- *Finlabo Investment Sicav – Dynamic Emerging Markets;*
- *Finlabo Investment Sicav – Dynamic US Equity;*
- *Finlabo Investment Sicav – Dynamic Equity;*
- *Finlabo Investment Sicav – Dynamic Allocation.*

The main features of this segment of *ETFplus* market are the following:

- Regulated and supervised official market;
- Orders must display the quantity only;
- Minimum Initial Investment is 1 share (no decimal available);
- Orders are executed at the NAV of the relevant Valuation Day, with the last available prices of such Valuation Day;
- The presence of an *appointed intermediary* is mandatory in order to execute the buy and sell order imbalance.

Intermonte SIM S.p.A, whose registered office is at Corso Vittorio Emanuele, 9 - Milan, and registered at no. 06817880013 on the Milan Company Register, is an authorised broker for the performance of negotiation services according to the Italian Decree Law no. 58 of 24th February 1998 on financial brokerage.

Intermonte SIM S.p.A has been appointed by the Fund as *appointed intermediary* in order to comply with the requirements of *Borsa Italiana SIM S.p.A*.

For any further information, please visit *Borsa Italiana S.p.A* website www.borsaitaliana.it

DISTRIBUTION POLICY

The Board of Directors may also decide to issue within the same class of Shares or Sub-Fund, two categories of Shares, being Distribution Shares and Accumulation Shares.

There may be tax implications in investing in one or the other of the categories of Shares.

Distribution Shares

The Distribution Shares will have that portion of the Sub-Fund's net investment income, which is attributable to such Shares, distributed by way of dividend.

The general meeting of holders of Distribution Shares in the Sub-Funds shall decide upon the proposals made by the Board of Directors on this matter. Should the Board of Directors decide to propose the payment of a dividend to the general meeting, such dividend shall be calculated in accordance with the legal and statutory limits for this purpose.

As far as Distribution Shares are concerned, the Board will propose the distribution of a dividend within the limits of their available assets. This dividend may include, besides the net investment income, the realised and unrealised capital gains after deduction of realised and unrealised capital losses. The Board of Directors may also decide the payment of an interim dividend of the previous or the current year in accordance with the legal provisions applicable.

Shareholders are paid by bank transfer sent to the address indicated in the Shareholders' register according to their instructions.

Each Shareholder is offered the possibility to reinvest his dividend free of charge up to the available Share unit.

Dividends not claimed within five years after their payment shall no longer be payable to the beneficiaries and shall revert to the Fund.

All dividend payment notices are published in the *d'Wort* and in any newspaper the Board of Directors deems appropriate.

Accumulation Shares

The Accumulation Shares will have that portion of the Sub-Fund's net investment income, which is attributable to such Shares, retained within the Sub-Fund thereby accumulating value in the price of the Accumulation Shares. The income will be reinvested.

Categories of Shares issued by the relevant Sub-Funds and available for subscription are detailed in the Appendix to the Prospectus.

ISSUE, REDEMPTION AND CONVERSION OF SHARES

"Late Trading" is to be understood as the acceptance of a subscription, conversion or redemption orders after the cut-off time on the relevant Valuation Day and the execution of such orders at the price based on the net asset value per share applicable to such Valuation Day. To deter such practice, the Board of Directors takes the necessary measures to prevent that subscriptions, conversions or redemptions be accepted after the cut-off time in Luxembourg and that the net asset value per share is calculated after the cut-off time ("forward pricing").

The repeated purchase and sale of shares designed to take advantage of pricing inefficiencies in the Fund – also known as “Market Timing”- may disrupt portfolio investment strategies and increase the Fund's expenses and adversely affect the interests of the Fund’s long term Shareholders. To deter such practice, the Board of Directors reserve the right, in case of reasonable doubt and whenever an investment is suspected to be related to Market Timing, which the Board of Directors shall be free to appreciate, to suspend, revoke or cancel any subscription, redemption or conversion order placed by investors who have been identified as doing frequent subscriptions and redemptions in and out of the Fund.

The Board of Directors, as safeguard of the fair treatment of all investors, may take necessary measures to ensure that (i) the exposure of the Fund to Market Timing activities is adequately assessed on an ongoing basis, and (ii) sufficient procedures and controls are implemented to minimise the risks of Market Timing in the Fund.

1. Issue of Shares

Initial offer details for new Sub-Funds are disclosed in the Section Sub-Funds details and in the Appendix I – Sub-Funds features to this Prospectus.

Unless otherwise provided for a Sub-Fund in the Section Sub-Funds Details to this Prospectus and in Appendix I – Sub-Funds details to this Prospectus, subscriptions for shares in each Sub-Fund can be made on any Bank Business Day. Applications for subscriptions will normally be satisfied, if accepted, on a Valuation Day, provided that the application is received by noon (Luxembourg time) on such Valuation Day.

Applications notified after this deadline will be satisfied on the next following Valuation Day.

The subscription price is payable within three Bank Business Days following the applicable Valuation day.

Applications for subscriptions must be sent in writing, fax or swift to the Administrative Agent or with any other appointed agent (if sent by fax or by electronic means to be followed promptly by the original

by post only for the first subscription and with the mention “already faxed”).

For each sub-fund shares are in registered form only. Shares may be held through accounts maintained with clearing houses.

Shares in registered form are dematerialised.

The Fund may issue fractional shares (*thousandths*). In case fractional registered shares are issued, a confirmation of subscription shall be issued.

Shares must be fully paid-up and are issued with no par value. There is no restriction with regard to the number of shares which may be issued.

The inscription of the shareholder’s name in the shareholders' register evidences his right to ownership of such registered shares. The shareholders' register is kept at the registered office of the Fund.

Applications for subscription may, at the subscriber's choice, pertain to a number of shares to be subscribed or to an amount to be invested in the Fund. Only in this latter case, fractional shares might be issued.

The rights attached to the shares are those provided for in the Luxembourg law of 10th August 1915 on commercial companies, as amended, unless superseded by the 2010 Law.

All shares of the Fund have an equal voting right, whatever their value (except that portion of a share that is a fractional share). The shares of the Fund have an equal right to the liquidation proceeds of the Fund.

The countries where the Fund is distributed may decide to apply minimum subscription amounts as described in the local documents in force.

The minimal initial subscription in any Sub-Fund is specified in Appendix I – Sub-Funds features to this Prospectus. The holding value in each Sub-Fund may only fall below such minimum as a result of a decrease of the net asset value per share of the Sub-Fund concerned.

Shares shall be allotted at the net asset value per share dated as of the Valuation Day.

In certain countries, investors may be charged with additional amounts in connection with the duties and services of local paying agents, correspondent banks or similar entities.

For requests for subscriptions in any major freely convertible currency other than the reference currency of the relevant Sub-Fund/Class of shares (approved by the Board of Directors), the Custodian will arrange the foreign exchange conversion at the risk and expense of the investor.

Shares may be subscribed against contributions in kind considered acceptable by the Board of Directors

on the basis of the investment policy of the relevant Sub-Fund and will be valued in an auditor's report as required by Luxembourg law. The relevant fees will be paid by the subscriber.

The Fund reserves the right to:

- accept or refuse any application in whole or in part and for any reason;
- repurchase, at any time, shares held by persons not authorised to buy or own the Fund's shares.

The Fund may also limit the distribution of shares of a given Sub-Fund to specific countries.

The Fund has delegated to the Management Company the administration and marketing services in respect of all the sub-funds. Pursuant to such delegation, the Management Company or its delegates will monitor the prevention of anti-money laundering measures. Measures aimed at the prevention of money laundering may require an applicant for shares to certify its identity to the Management Company or its delegates. Depending on the circumstances of each application, verification may not be required where the applicant makes the payment from an account held in the applicant's name at a recognised financial institution, or the application is made through a recognised intermediary. These exceptions will only apply if the financial institution or intermediary referred to above is established within a country recognised by Luxembourg as having equivalent anti-money laundering regulations. Thus, for the subscription to be valid and acceptable by the Fund, shareholders shall attach, at least, the following documents to the application forms:

- if the investor is a *physical person*, a copy of one of his/her identification documents (*passport or ID card*), or
- if the investor is a *legal entity*, a copy of its corporate documents (*such as the articles, published balances, excerpt of the Trade Register, ...*) and the copies of the identification documents of its economic eligible parties (*passport or ID card*).

These documents shall be certified true copies of the originals by a public authority (*ex. notary, police, embassy, etc*) of the country of residency.

This requirement is mandatory, except if:

- the application form is sent through another professional of the financial sector established in a FATF State and that this professional has already ascertained the identity of the applicant in a manner equivalent to that required by Luxembourg law, and
- a delegation contract of the identification obligations has been signed between such professional and the Administrative Agent or EFA.

Shareholders are informed that their personal data or information given in the subscription documents or otherwise in connection with an application to subscribe for shares, as well as details of their shareholding, will be stored in digital form and processed in compliance with the provisions of the Luxembourg law of 2nd August 2002 on data protection. In particular, such process of personal data or information implies that subscribing the Fund, Shareholders consent that their personal data or any information relating to them be disclosed (i) to any entity of the promoter's group and any affiliate, or (ii)

to any authority in any country when required by law or regulation.

The Fund shall normally issue confirmations of shareholding to the holder of shares unless Shareholders specifically request the issue of share certificates. The inscription of the shareholder's name in the register of Shareholders evidences his right of ownership of such registered shares.

Shareholders who request the material delivery of their share certificates may have to pay the cost incurred by such delivery.

Confirmation of completed subscriptions together with share certificates, if applicable, will be mailed at the risk of the investor, to the address indicated in the subscription form within seven Bank Business Days following the issue of the shares.

Issue of shares of a given Sub-Fund shall be suspended whenever the determination of the net asset value per share of such Sub-Fund is suspended by the Fund as provided for under Section "*General Information*".

2. Conversion of Shares

Conversion of Shares involving Class L is not allowed.

Subject to any suspension of the determination of the net asset values concerned and to compliance with any eligibility conditions, Shareholders have the right to convert all or part of the shares they hold in any Sub-Fund/Class of shares into shares of another existing Sub-Fund/Class of shares by making a request in writing, by fax to the Administrative Agent indicating the number and the reference name of the shares to be converted.

The conversion request must be received by noon (Luxembourg time) on the applicable Valuation Day and must be accompanied, as the case may be, by a duly filled out transfer form, or by any document vouching for the transfer.

Requests received after this deadline will be satisfied on the next following Valuation Day.

The number of shares issued upon conversion will be based upon the respective net asset values of the shares of the two Sub-Funds concerned on the common Valuation Day on which the conversion request is accepted.

In certain countries, investors may be charged with additional amounts in connection with the duties and services of local paying agents, correspondent banks or similar entities.

If the net asset values concerned are expressed in different currencies, the conversion will be calculated by using the exchange rate applicable on the relevant Valuation Day on which the conversion is to be effected.

Under the responsibility of the Board of Directors and with the approval of the Shareholders concerned, conversions may be effected in kind by transfer of a representative selection of the original Sub-Fund's/Class of shares' holding in securities and cash pro rata to the number of shares converted, to the receiving Sub-Fund/Class of shares having a compatible investment policy as certified by the auditor of the Fund.

Any expenses incurred in the transfers shall be borne by the Shareholders concerned.

The number of shares allocated in the new sub-fund or class of Shares shall be established as follows:

$$A = \frac{(B \times C \times D)}{E} \pm X_p$$

Where:

- A number of shares allotted in the new sub-fund/class;
- B number of shares presented for conversion in the original sub-fund/class;
- C net asset value, on the applicable Valuation day, of the shares of the original sub-fund/class, presented for conversion;
- D exchange rate applicable on the day of the operation between the currencies of both classes of shares;
- E net asset value on the applicable Valuation day of the shares allotted in the new sub-fund/class;
- Xp balance, applied or not, at the choice of the Shareholder. It may be inapplicable and, in such case, reimbursed to the shareholder.

On the other hand, it may be considered to be a fraction for which the shareholder has to pay - within the time limits provided for the payment of subscriptions - the difference in relation to the net asset value of the new sub-fund so as to obtain a full number of shares. Finally, it may represent a fraction of a share.

After the conversion, the Fund shall inform the shareholders of the number of new shares obtained at conversion as well as their price.

If certificates were issued for the shares of the original Sub-Fund/Class of shares, the new certificate(s) shall be issued only upon receipt by the Administrative Agent of such former certificates and provided that the Shareholder has requested the issuance of such new certificate(s).

In addition, if, as a result of a conversion, the value of a Shareholder's remaining holding in the original Sub-Fund/Class of shares would become less than the minimum holding referred to for each Sub-Fund/Class of shares in Appendix I – Sub-Funds features to this Prospectus, the relevant Shareholder will be deemed to have requested the conversion of all of his shares.

Restrictions on subscriptions or conversions in into certain sub-funds

A sub-fund may be closed to new subscriptions or conversions in (but not to redemptions or conversions out) if, in the opinion of the Management Company or of the Fund, this is necessary to protect the interests of existing shareholders. One such circumstance would be where the sub-fund's assets have reached a size such that the capacity of the market and/or the capacity in the strategy applied by the Investment Manager have been reached, and where permitting further inflows would be detrimental to

the performance of the sub-fund.

Any sub-fund which, in the opinion of the Management Company or of the Fund, is materially capacity constrained may be closed to new subscriptions or conversions without notice to shareholders. Investors should confirm with the Management Company or the Administrative Agent the current status of sub-funds. At the time of the present prospectus, no specific sub-fund has been identified as having the potential to become capacity constrained.

Investors should contact the Management Company prior to making an investment decision in the sub-funds listed above, to assess whether or not such sub-funds are closed to new subscriptions/conversions in. Once closed to new subscriptions or conversions in, a sub-fund will not be re-opened until, in the opinion of the Management Company, the circumstances which required closure no longer prevail and significant capacity is available within the sub-fund for new investment.

3. Redemption of Shares

Any Shareholder may present to the Administrative Agent his request for redemption by number of shares or by amount to be redeemed. The redemption can be done in part or whole on any Valuation Day.

Redemption requests received until noon (Luxembourg time) on such Valuation Day (the “Cut-off time”) will be executed at the net asset value per share determined on that Valuation Day. Redemption requests received after the Cut-off time will be executed on the following Valuation Day.

In certain countries, investors may be charged with additional amounts in connection with the duties and services of local paying agents, correspondent banks or similar entities.

Redemption payments will be made in the reference currency of the relevant shares class at the latest on the third Bank Business Day following the applicable Valuation Day, provided the relevant share certificates, if any, have been duly received by the Administrative Agent for cancellation.

Under the responsibility of the Board of Directors and with the approval of the Shareholders concerned redemptions may be effected in kind. Shareholders are free to refuse the redemption in kind and to insist upon cash redemption payment in the reference currency of the Sub-Fund. Where Shareholders agree to accept redemption in kind they will, to the extent possible, receive a representative selection of the Sub-Fund's holding in securities and cash pro rata to the number of shares redeemed. The value of the redemption in kind will be certified by an auditor's certificate drawn up in accordance with the requirements of Luxembourg law. Any expenses incurred for redemptions in kind shall be borne by the Shareholders concerned.

If, as a result of a redemption, the value of a Shareholder's holding in a Sub-Fund would become less than the minimum holding referred to for each Class of shares in Appendix I – Sub-Funds Details to this Prospectus, the relevant Shareholder will be deemed (if so decided from time to time by the Board of Directors) to have requested redemption of all of his shares. Also, the Board of Directors may, at any time, decide to compulsorily redeem all shares from Shareholders whose holding in a Sub-Fund is less

than the minimum holding referred to above. In case of such compulsory redemption, the Shareholder concerned will receive a one month prior notice so as to be able to increase his holding above the minimum holding at the applicable net asset value.

Where redemption requests received for one Sub-Fund on any Valuation Day exceed 10% of the net assets thereof, the Board of Directors may delay the execution, or may only partially execute such redemption requests. Any shares which, by virtue of this limitation, are not redeemed as at any particular Valuation Day shall be carried forward for realisation on the next following applicable Valuation Day in priority to subsequent requests.

In normal circumstances the Board of Directors will maintain adequate level of liquid assets in order to meet redemption requests.

Redemption of shares of a given Sub-Fund shall be suspended whenever the determination of the net asset value per share of such Sub-Fund is suspended by the Fund as provided for under Section "*General Information*".

A Shareholder may not withdraw his request for redemption of shares of any one Sub-Fund except in the event of a suspension of the determination of the net asset value of the shares of such Sub-Fund and, in such event, a withdrawal will be effective only if written notification is received by the Administrative Agent before the termination of the period of suspension. If the request is not withdrawn, the Fund shall proceed to redemption on the first applicable Valuation Day following the end of the suspension of the determination of the net asset value of the shares of the relevant Sub-Fund.

The redemption price for shares of the Fund may be higher or lower than the purchase price paid by the shareholder at the time of subscription due to the appreciation or depreciation of the net assets.

MANAGEMENT AND FUND CHARGES

The Management Company will receive a **Management Fee** and a **Performance Fee** for each Sub-Fund as described in the Section Sub-Funds Details and in Appendix I – Sub-Funds features to this Prospectus. The management fee per annum is calculated on the net assets of the Sub-Fund for the provision of the Management Company services. The Management Company will remunerate the Investment Manager out of the management fee.

The Management Company will also receive an **Administration Fee** for each Sub-Fund as described in Appendix I – Sub-Funds features to this Prospectus, out of which the Management Company will remunerate the Administrative Agent. The Administration Fee is payable monthly and based on the average net assets of the Sub-Fund during each month.

The Management Company will invoice the Fund for marketing expenses, web-site development, legal and distribution support or other services requested by the Fund, as further disclosed in the Fund Management Agreement. When acting as Investment Manager, the Management Company will invoice the Fund for **middle office fees and pre-matching fees**, with a minimum of EUR 24'000 per annum per Sub-Fund.

The Management Company will receive a **Domiciliation Fee** of Euro 5'000 per annum for the entire Fund and 1'000 per annum per Sub-Fund.

The Custodian will receive a custodian fee based on the average net assets of the Fund of up to a maximum of 0.065% p.a. payable monthly.

Sub-custody fees and transaction fees are charged separately.

The Fund bears its operational costs including but not limited to the cost of buying and selling portfolio securities, settlement fees, governmental fees, taxes, fees and out-of-pocket expenses of its Directors, including their insurance cover, legal and auditing fees, publishing and printing expenses, marketing expenses and website development and up-dating, the cost of preparing the explanatory memoranda, financial reports and other documents for the Shareholders, postage, telephone and telex. The Fund also pays advertising expenses and the costs of the preparation of this Prospectus and any other registration fees. All expenses are taken into account in the determination of the net asset value of the shares of each Sub-Fund.

All fees, costs and expenses to be borne by the Fund will be charged initially against the investment income of the Fund.

The organisation expenses of the Fund shall be amortised over the first 5 (five) accounting years. These expenses will be paid pro-rata on the net assets of the Sub-Funds in existence at the time of incorporation of the Fund. In case where further Sub-Funds are created in the future, these Sub-Funds will bear their

own formation expenses which may also be amortised over 5 (five) accounting years.

TAXATION

1. Taxation of the Fund

In accordance with the law in force and current practice, the Fund is not liable to any Luxembourg tax on income and capital gains.

However, the Fund is subject to an annual tax in Luxembourg corresponding to 0.05% of the value of the net assets. This tax is payable quarterly on the basis of the Fund's net assets calculated at the end of the relevant quarter. The rate of this tax may be reduced to 0.01% of the value of the net assets for Sub-Funds or Classes of shares reserved to institutional investors. To the extent that the assets of the Fund are invested in investment funds established in Luxembourg, no such tax is payable.

No tax is payable in Luxembourg on realised or unrealised capital appreciation of the assets of the Fund. Although the Fund's realised capital gains, whether short- or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility, though quite remote, is not totally excluded. The regular income of the Fund from some of its securities as well as interest earned on cash deposits in certain countries may be liable to withholding taxes at varying rates, which normally cannot be recovered.

2. Taxation of the Shareholders

As of the date of the registration of the Fund, Shareholders are not subject to any such tax in Luxembourg on capital gains, income, donations or inheritance, nor to withholding taxes, subject to the EU Tax Considerations below or with the exception of shareholders having their domicile, residence or permanent establishment in Luxembourg, and certain Luxembourg ex-residents, owning more than 10% of the Fund's capital.

The provisions above are based on the law and practices currently in force and may be amended.

3. European Union Tax Considerations

The law passed by parliament on 21st June 2005 (the "Law") has implemented into Luxembourg law, Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments (referred to as "Savings Directive"). Under the Savings Directive, Member States of the EU will be required to provide the tax authorities of another EU Member State with information on payments of interest or other similar income paid by a paying agent (as defined by the Savings Directive) within its jurisdiction to an individual resident in that other EU Member State. Austria and Luxembourg have opted instead for a tax withholding system for a transitional period in relation to such payments. Switzerland, Monaco, Liechtenstein, Andorra and San Marino and the Channel Islands, the Isle of Man and the

dependent or associated territories in the Caribbean, have also introduced measures equivalent to information reporting or, during the above transitional period, withholding tax.

Dividends, if any, distributed by a Sub-Fund of the Fund will be subject to the Savings Directive and the Law if more than 15% of the relevant Sub-Fund's assets are invested in debt claims (as defined in the Law) and proceeds realised by shareholders on the disposal of shares will be subject to the Savings Directive and the Law if more than 25% of the relevant Sub-Fund's assets are invested in debt claims.

On 25 November 2014, Luxembourg enacted a law relating to the automatic exchange of information on interest payments from savings income (the "Exchange of Information Law") modifying the Law. The Exchange of Information Law abolished the transitional period during which the Luxembourg was entitled to levy a withholding tax on interest payments.

As from 1 January 2015, Luxembourg applied the automatic exchange of information on interest payment made by a Luxembourg paying agent to individuals resident in other Member States.

The foregoing is only a summary of the implications of the Savings Directive and the Law, is based on the current interpretation thereof and does not purport to be complete in all respects. It does not constitute investment or tax advice. Potential subscribers should inform themselves and, if necessary, take advice on the laws and regulations (such as those on taxation and exchange control) applicable to the subscription, purchase, holding and sale of their shares in the country of respectively their citizenship, residence or domicile.

4. FATCA

a) General Rules and Legal background

FATCA is part of the U.S. Hiring Incentives to Restore Employment Act. It is designed to prevent U.S. tax payers from avoiding U.S. tax on their income by investing through foreign financial institutions and offshore funds.

FATCA applies to so-called Foreign Financial Institutions ("**FFIs**"), which notably include certain investment vehicles ("Investment Entities"), among which UCITS.

According to the FATCA Rules, FFIs, unless they can rely under ad-hoc lighter or exempted regimes, need to report to the IRS certain holdings by/ and payments made to a/ certain U.S. investors b/ certain U.S. controlled foreign entity investor, c/ non U.S. financial institution investors that do not comply with their obligations under FATCA and d/clients that are not able to document clearly their FATCA status.

On March 28th, 2014, the Luxembourg and U.S. governments entered into a Model I IGA which aims to coordinate and facilitate the reporting obligations under FATCA with other U.S. reporting obligations of Luxembourg financial institutions (the "Luxembourg IGA" or the "IGA").

According to the terms of the IGA, Reporting Luxembourg FFIs will have to report to the Luxembourg tax authorities instead of directly to the IRS. Information will be communicated onward by the

Luxembourg authorities to the IRS under the general information exchange provisions of the U.S. Luxembourg income tax treaty.

The Luxembourg law of 24 July 2015 transposing the Luxembourg IGA was published on 29 July 2015.

b) Other parties

Additional intergovernmental agreements similar to the IGA have been entered into or are under discussion by other jurisdictions with the U.S. Investors holding investments via distributors or custodians that are not in Luxembourg or in another IGA country should check with such distributors or custodians as to the distributor's or custodian's intention to comply with FATCA. Additional information may be required by the Company, custodians or distributors from certain investors in order to comply with their obligations under FATCA or under an applicable IGA.

The foregoing is only a summary of the implications of FATCA, is based on the current interpretation thereof and does not purport to be complete in all respects.

Shareholders and prospective investors should contact their own tax adviser regarding the application of FATCA to their particular circumstances.

c) FATCA Status

The Fund has elected for the FATCA status of "Sponsored Investment Entity" under the Luxembourg IGA and has appointed the Management Company as its "Sponsoring Entity". The Fund will hence qualify as "Non-Reporting/Deemed-compliant FFI" under the terms of the IGA and will not need to register with the IRS/obtain a GIIN number unless "US reportable accounts" are identified.

As registered "Sponsoring Entity" towards the IRS, the Management Company will act as "Sponsoring entity" for the Fund and will perform on its behalf all due diligence, withholding, reporting and other requirements that the Fund would have been required to perform in order to comply with the Luxembourg IGA as implemented into Luxembourg national law and regulation.

As part of its reporting obligations, the Fund/the Management Company (or its delegates) may be required to disclose certain confidential information (including, but not limited to, the investor's name, address, tax identification number, if any, and certain information relating to the investor's investment in the Company self-certification, GIIN number or other documentation) that they have received from (or concerning) their investors and automatically exchange information with the Luxembourg taxing authorities or other authorized authorities as necessary to comply with FATCA, related IGA or other applicable law or regulation.

The Fund will continually assess the extent of the requirements that FATCA and notably the Luxembourg IGA, as transposed in Luxembourg law, places upon it.

GENERAL INFORMATION

1. Organisation

The Fund is an investment company organised as a *société anonyme* under the laws of the Grand-Duchy of Luxembourg and qualifies as a *société d'investissement à capital variable* (SICAV) in accordance with Part I of the 2010 Law. The Fund has been incorporated in Luxembourg on 20th April 2010 for an unlimited period under the name of "FINLABO INVESTMENTS SICAV" with an initial share capital of EUR 31'000. Its Articles of Incorporation have been published in the Mémorial on 27th April 2010. The last statutory modifications were voted at the Extraordinary General Meeting of the Fund held on 21st January 2013 and a consolidated version of the Articles of Incorporation shall be published in the Mémorial C on 4th February 2013. The Fund is registered with the Registre de Commerce et des Sociétés, Luxembourg, under number B 152579.

The Articles of Incorporation and a legal notice in respect of the issue and sale of shares by the Fund have been filed with the Registre de Commerce et des Sociétés of Luxembourg.

The minimum capital of the Fund required by Luxembourg law is EUR 1'250'000.

2. The Shares

The shares in each Sub-Fund are freely transferable and are each entitled to participate equally in the profits and liquidation proceeds attributable to each Sub-Fund concerned. The rules governing such allocation are set forth under section 5 "*Allocation of Assets and Liabilities among the Sub-Funds*" thereafter. The shares, which are of no par value and which must be fully paid upon issue, carry no preferential or pre-emptive rights and each one is entitled to one vote at all meetings of Shareholders. Shares redeemed by the Fund become null and void.

The Fund may restrict or prevent the ownership of its shares by any person, firm or corporation, if such ownership is such that it may be against the interests of the Fund or of the majority of its Shareholders. Where it appears to the Fund that a person who is precluded from holding shares, either alone or in conjunction with any other person, is a beneficial owner of shares, the Fund may proceed to compulsory redemption of all shares so owned.

3. Meetings

The annual general meeting of Shareholders will be held at the registered office of the Fund in Luxembourg on the 31st July of each year at 2:30 p.m. or, if any such day is not a Bank Business Day, on the next following Bank Business Day. The first annual general meeting of Shareholders will be held on 31st July, 2011. Notices of all general meetings will be published in the Mémorial and in the d'Wort to the extent required by Luxembourg law and in such other newspaper as the Board of Directors shall

determine and will be sent to the holders of registered shares by post at least 8 days prior to the meeting at their addresses shown on the register of Shareholders. Such notices will include the agenda and will specify the time and place of the meeting and the conditions of admission. They will also refer to the rules of quorum and majorities required by Luxembourg law and laid down in Articles 67 and 67-1 of the Luxembourg law of 10th August 1915 on commercial companies (as amended) and in the Articles of Incorporation of the Fund.

Each share confers the right to one vote. Any change in the Articles of Incorporation affecting the rights of a Sub-Fund must be approved by a resolution of both the general meeting of the Fund and the Shareholders of the Sub-Fund concerned.

4. Reports and Accounts

Audited annual reports shall be published within 4 (four) months following the end of the accounting year and unaudited semi-annual reports shall be published within 2 (two) months following the period to which they refer. The annual and semi-annual reports shall be made available at the registered offices of the Fund and the Custodian during ordinary office hours and if required they may be sent to registered shareholders. The Fund's accounting year ends on 31st March of each year. The first audited annual report shall be issued for the financial year ending on 31st March 2011, and published within the four following months according to the law. A semi-annual report shall be issued on 30th September 2010, and published within the 2 (two) following months according to the law.

The reference currency of the Fund is the Euro ("EUR"). The aforesaid reports will comprise consolidated accounts of the Fund expressed in EUR as well as individual information on each Sub-Fund expressed in the reference currency of each Sub-Fund.

5. Allocation of assets and liabilities among the Sub-Funds

For the purpose of allocating the assets and liabilities between the Sub-Funds, the Board of Directors has established a pool of assets for each Sub-Fund in the following manner:

- (a) the proceeds from the issue of each share of each Sub-Fund are to be applied in the books of the Fund to the pool of assets established for that Sub-Fund and the assets and liabilities and income and expenditure attributable thereto are applied to such pool subject to the provisions set forth hereafter;
- (b) where any asset is derived from another asset, such derivative asset is applied in the books of the Fund to the same pool as the asset from which it was derived and on each revaluation of an asset, the increase or diminution in value is applied to the relevant pool;
- (c) where the Fund incurs a liability which relates to any asset of a particular pool or to any action taken in connection with an asset of a particular pool, such liability is allocated to the relevant pool;

- (d) in the case where any asset or liability of the Fund cannot be considered as being attributable to a particular pool, such asset or liability is allocated to all the pools in equal parts or, if the amounts so justify, pro rata to the net asset values of the relevant Sub-Funds;

If there have been created within each Sub-Fund different classes of shares, the rules shall *mutatis mutandis* apply for the allocation of assets and liabilities amongst Classes.

6. Determination of the Net Asset Value of Shares

Unless otherwise disclosed in the Section Sub-Funds Details and in the Appendix I – Sub-Funds features to this Prospectus, the net asset value of the shares of each Sub-Fund is determined every day in its reference currency. It shall be determined by dividing the net assets attributable to each Sub-Fund by the number of outstanding shares of such Sub-Fund on the Valuation Day. Where a Valuation Day falls on a public holiday (legal or bank) in Luxembourg, the Valuation Day is the following Luxembourg Bank Business Day. The net assets of each Sub-Fund are made up of the value of the assets attributable to such Sub-Fund less the total liabilities attributable to such Sub-Fund calculated at such time as the Board of Directors shall have set for such purpose.

The value of the assets of the Fund shall be determined as follows:

- (a) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as the Fund may consider appropriate in such case to reflect the true value thereof;
- (b) the value of securities and/or financial derivative instruments which are quoted or dealt in on any stock exchange shall be based on the Valuation Day last available prices and, if appropriate, on the average price on the stock exchange which is normally the principal market of such securities and/or financial derivative instruments, and each security and/or financial derivative instrument traded on any other regulated market shall be valued in a manner as similar as possible to that provided for quoted securities and/or financial derivative instruments;
- (c) for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market, as well as quoted or non-quoted securities on such other market for which no valuation price is available, or securities for which the quoted prices are not representative of the fair market value, the value thereof shall be determined prudently and in good faith on the basis of foreseeable sales prices;
- (d) shares or units in open-ended investment funds shall be valued at their last available calculated net asset value;

- (e) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or on an amortised cost basis as determined by the Board of Directors. All other assets, where practice allows, may be valued in the same manner;
- (f) the financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market will be valued in accordance with market practice;
- (g) swaps are valued at their fair value based on the underlying securities.

The Fund is authorized to apply other adequate valuation principles for the assets of the Fund and/or the assets of a given Sub-Fund if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

If the Board of Directors considers that the net asset value calculated is not representative of the true value of the Fund's shares, or if, since the calculation of the net asset value, there have been significant fluctuations on the stock exchanges concerned, the Board of Directors may decide to actualise the net asset value on that same day. In these circumstances, all subscription, redemption and conversion requests received for that day will be handled on the basis of the actualised net asset value with care and good faith.

The value of assets denominated in a currency other than the reference currency of a Sub-Fund shall be determined by taking into account the previous day closing rate of exchange.

The net asset value per share of each Class in a Sub-Fund and the issue and redemption prices thereof are available at the registered office of the Fund.

7. Temporary Suspension of Issues, Redemptions and Conversions

The determination of the net asset value of shares of one or several Sub-Funds may be suspended during:

- (a) any period when any of the principal markets or stock exchanges on which a substantial portion of the investments of the concerned Sub-Fund is quoted or dealt in, is closed otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended; or
- (b) the existence of any state of affairs which constitutes an emergency as a result of which disposal or valuation of assets of the concerned Sub-Fund would be impracticable; or
- (c) any period when the Fund is unable to repatriate funds for the purpose of making payments on the redemption of shares or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of shares cannot in the opinion of the Board of Directors be effected at normal rates of exchange:

- (d) as soon as the decision to liquidate one or more Sub-Funds is taken or in case of the Fund's dissolution.
- (e) any period when any Sub-Fund of the Fund is a feeder of a master UCITS which is itself entitled to suspend the Net Asset Value, the redemption or subscription of its shares, whether at its own initiative or at the request of its competent authorities.

The Board of Directors has the power to suspend the issue, redemption and conversion of shares in one or several Sub-Funds for any period during which the determination of the net asset value per share of the concerned Sub-Fund(s) is suspended by the Fund by virtue of the powers described above. Any redemption/conversion request made or in abeyance during such a suspension period may be withdrawn by written notice to be received by the Fund before the end of such suspension period. Should such withdrawal not be effected, the shares in question shall be redeemed/converted on the first Valuation Day following the termination of the suspension period. In the event of such period being extended, notice may be published in newspapers in the countries where the Fund's shares are publicly sold. Investors who have requested the issue, redemption or conversion of shares shall be informed of such suspension when such request is made.

8. Merger or Liquidation of Sub-Funds

A Sub-Fund or Class may be dissolved by compulsory redemption of shares of the Sub-Fund or Class concerned, upon:

- a) a decision of the Board of Directors of the Fund if the net assets of the Sub-Fund or Class concerned have decreased below Euro 5'000'000 or the equivalent in another currency during a period of at least 3 months, or if it is required by the interests of the shareholders concerned, or
- b) the decision of a meeting of holders of shares of the relevant Sub-Fund or Class. There shall be no quorum requirement and decisions may be taken by a simple majority of the shares of the Sub-Fund or Class concerned.

In such event the Shareholders concerned will be advised and the net asset value of the shares of the relevant Sub-Fund or Class shall be paid on the date of the compulsory redemption. The relevant meeting may also decide that assets attributable to the Sub-Fund or Class concerned will be distributed on a prorata basis to the holders of shares of the relevant Sub-Fund or Class which have expressed the wish to receive such assets in kind.

A meeting of holders of shares of a Sub-Fund or Class may decide to amalgamate such Sub-Fund or Class with another existing Sub-Fund or Class or to contribute the assets (and liabilities) of the Sub-Fund or Class to another undertaking for collective investment against issue of shares of such undertaking for collective investments to be distributed to the holders of shares of such Sub-Fund or Class. If such amalgamation or contribution is required by the interests of the Shareholders concerned or if the net assets of the Sub-Fund/Class have decreased below Euro 1'000'000 or the equivalent in another currency during a period of at least 3 months, it may be decided by the Board of Directors. However, for any merger where the

merging fund would cease to exist, the merger must be decided by a meeting of shareholders of the merging fund deciding in accordance with the quorum and majority requirements provided by law.

Should the Fund cease to exist following a merger, the effective date of the merger must be recorded by notarial deed.

Insofar as a merger requires the approval of shareholders pursuant to the provisions above, only the approval of the shareholders of the sub-fund concerned shall be required.

Any merger is subject to prior authorisation by the CSSF which shall be provided with specific information as described in the Law, and, in particular, with the common draft terms of the proposed merger duly approved by the merging fund and the receiving fund.

The common draft terms of the proposed merger shall set out particulars precisely listed in the Law including but not limited to:

- a) an identification of the type of merger and of the funds involved,
- b) the background to and the rationale for the proposed merger,
- c) the expected impact of the proposed merger on the shareholders of both the merging and the receiving fund,
- d) the criteria adopted for valuation of the assets and, where applicable, the liabilities on the date for calculating the exchange ratio,
- e) the calculation method of the exchange ratio,
- f) the planned effective date of the merger,
- g) the rules applicable to the transfer of assets and the exchange of shares, respectively, and
- h) as the case may be, the Instruments of Incorporation of the newly constituted receiving fund.

The depositaries of the merging and the receiving funds, insofar as they are established in Luxembourg, must verify the conformity of the particulars with the requirements of the Law and the Instruments of Incorporation of their respective fund.

The merging fund established in Luxembourg shall entrust either an approved statutory auditor or, as the case may be, an independent auditor.

A copy of the reports of the approved statutory auditor or, as the case may be, the independent auditor shall be made available on request and free of charge to the shareholders of both the merging and the receiving fund and to their competent supervisory authorities.

Shareholders of the merging and the receiving fund shall be provided with appropriate and accurate information on the proposed merger so as to be able to make an informed judgment of the impact of the merger on their investment.

This information shall be provided at least thirty days before the last date for requesting redemption or, as the case may be, conversion without any charge other than those retained by the Fund to meet disinvestment costs.

The shareholders right to request redemption or, as the case may be, conversion of their shares shall become effective from the moment that the shareholders of the merging fund and those of the receiving

fund have been informed of the proposed merger in accordance with the above paragraph and shall cease to exist five working days before the date for calculating the exchange ratio.

Once this period elapses, the decision to merge becomes binding on all shareholders who have not yet availed themselves of the above-mentioned facility.

Where funds have designated a management company, legal, advisory or administrative costs associated with the preparation of the merger shall not be charged to the merging or receiving fund, or to any of their shareholders.

Further details on cross-border as well as domestic sub-funds mergers are disclosed in Chapter 8 of the 2010 Law.

If following a compulsory redemption of all shares of one or more Sub-Funds or Classes, payment of the redemption proceeds cannot be made to a former Shareholder, then the amount in question shall be deposited with the Caisse de Consignation within nine months following the decision of liquidation for the benefit of the person(s) entitled thereto until the expiry of the period of limitation. The close of liquidation of one or more Sub-Funds or Classes shall also take place within nine months from the Board of Directors' decision to liquidate the Sub-Funds or Classes.

In case it would not be possible to meet such deadlines, an authorisation shall be requested from the CSSF in order to extend it.

In the event that the Board of Directors determines that it is required by the interests of the shareholders of the relevant Sub-Fund or that a change in the economic or political situation relating to the Sub-Fund concerned has occurred which would justify it, the reorganisation of one Sub-Fund, by means of a division into two or more Sub-Funds, may be decided by the Board of Directors. Such decision will be published in the same manner as described above and, in addition, the publication will contain information in relation to the two or more new Sub-Funds. Such publication will be made within one month before the date on which the reorganisation becomes effective in order to enable the shareholders to request redemption of their shares, free of charge before the operation involving division into two or more Sub-Funds becomes effective.

9. Liquidation of the Fund

The Fund is incorporated for an unlimited period and liquidation shall normally be decided upon by an extraordinary general meeting of Shareholders. Such a meeting must be convened by the Board of Directors within 40 days if the net assets of the Fund become less than two thirds of the minimum capital required by law. The meeting, for which no quorum shall be required, shall decide on the dissolution by a simple majority of shares represented at the meeting. If the net assets fall below one fourth of the minimum capital, the dissolution may be resolved by Shareholders holding one fourth of the shares at the meeting.

Should the Fund be liquidated, such liquidation shall be carried out in accordance with the provisions of the 2010 Law which specifies the steps to be taken to enable Shareholders to participate in the

liquidation distributions and in this connection provides for deposit in escrow at the Caisse de Consignation in Luxembourg of any such amounts which it has not been possible to distribute to the Shareholders at the close of liquidation. Amounts not claimed within the prescribed period are liable to be forfeited in accordance with the provisions of Luxembourg law. The net liquidation proceeds of each Sub-Fund shall be distributed to the Shareholders of the relevant Sub-Fund in proportion to their respective holdings.

The close of liquidation of the Fund and the deposit of the liquidation residue with the Caisse de Consignations in Luxembourg shall take place within 9 (nine) months from the Board of Directors' decision to liquidate the Fund. In case it would not be possible to meet such deadline, an authorisation shall be requested from the CSSF in order to extend it.

10. Material Contracts

The following material contracts have been entered into:

- (a) A Fund Management Agreement entered into between the Fund and CASA4FUNDS SA pursuant to which the latter acts as the Management Company of the Fund. This Agreement is entered into for an unlimited period and may be terminated by either party upon three months' written notice.
- (b) A General Agreement entered into between the Fund and BANQUE DE LUXEMBOURG pursuant to which the latter was appointed Custodian. The Agreement is entered into for an unlimited period and may be terminated by either party upon three months' written notice.
- (c) An Administrative Agent, Registrar and Transfer Agent Agreement entered into between the Management Company and EFA, pursuant to which the latter acts as Administrative, Transfer and Registrar Agent of the Fund.
- (d) A Domiciliary Agreement entered into between the Fund and CASA4FUNDS SA pursuant to which the latter acts as Domiciliary Agent of the Fund.

11. Documents

Copies of the contracts mentioned above are available for inspection, and copies of the Articles of Incorporation of the Fund, the current Prospectus, the KiiD and the latest financial reports may be obtained free of charge during normal office hours at the registered office of the Fund in Luxembourg.

12. Official Language

The original versions of this Prospectus and of the Articles of Incorporation are in English. However, the Board of Directors of the Fund may consider that these documents must be translated into the languages of the countries in which the shares are offered and sold. In case of any discrepancies between the English text and any other language into which the Prospectus and the Articles of Incorporation are translated, the English text will prevail.

13. Publication of other information

The Fund shall make public the issue, sale and repurchase price of its shares each time the Fund respectively its sub-funds issue, sell and repurchase their shares, and at least twice a month.

1. Reference Currency

EUR

2. Performance Fee

Applicable to all Share classes

The Performance Fee will amount to 20% p.a. of return of the relevant Share Class that exceeds the greater of the Hurdle Rate (calculated as the sum of the average Eonia rate + 500 basis points) and the High Watermark (calculated as the return necessary since the start of the calendar year to equal the Net Asset Value per Share of the relevant Share Class on the last Valuation Day of the last calendar year in which a Performance Fee was charged).

On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made when appropriate, and the Performance Fee is paid where applicable for each class of the relevant Sub-Fund as described below.

In addition, the Performance Fee will be calculated taking into account movements on the capital and applying the Crystallization Principle so that the Performance Fee is calculated on the basis of the Net Asset Value after deduction of all expenses, liabilities, and Management Fees (but not Performance Fee), and is adjusted to take account of all subscriptions and redemptions. If Shares are redeemed on any day before the last day of the period for which a Performance Fee is calculated, while provision has been made for Performance Fee, the Performance Fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for Performance Fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of Performance Fees.

Payment of the Performance Fee, which is calculated on 31st December of each year and accrued on a daily basis, is made at the beginning of the following year.

3. Fee Schedule, available Share Classes and main features

See Appendix I – Sub-Funds features

4. Investment Objective and Policy

This Sub-Fund aims to provide capital appreciation over time in euro by investing mainly in equity, equity related securities and equity derivatives through long positions (including futures on indices and

stocks). The Sub-Fund's investment universe will, in terms of geographic scope, be focused on countries and markets included into the MSCI Emerging Markets Indices or into the MSCI Pacific ex Japan Index, and in related currencies, with no restriction in terms of economic sector.

The Sub-Fund may secondarily invest in equity and debt securities (with a minimum rating of BB/Ba2) issued by worldwide issuers, and in related currencies.

If the Investment Manager considers this to be in the best interest of the shareholders, the Sub-Fund may, for defensive purposes and on a temporary basis, also hold cash deposits and Money Market Instruments up to 100 % of its total net assets.

Within the limits set forth in the investment restrictions, the Sub-Fund may use derivative techniques and instruments for hedging or for other purposes. The aggregate sum of commitment arising from the use of these instruments shall not exceed the value of the Sub-Fund's total net assets.

In particular, the Sub-Fund may use call or put options and/or futures and/or forward contracts on transferable securities, interest rates, indices, exchange rates and other financial instruments traded on Regulated Markets.

In order to meet the investment objective of the Sub-Fund set out above, the Sub-Fund may also invest up to 10% of its total net assets in units of UCITS and/or other undertakings for collective investment including Exchange Traded Funds (ETFs), qualifying as UCITS or respectively UCIs, as per the meaning of articles 41 (1) e) and 46 of the 2010 Law.

The Sub-Fund shall not be charged for subscription or redemption fees on account of its investments in such UCITS, UCIs and ETF, for which Casa4Funds SA acts as management company nor is linked to such UCITS/UCIs or ETF's management company within the meaning of article 46(3) of the 2010 Law.

Due to increased volatility of the markets, the portfolio of the Sub-Fund may have a high turnover ratio, which may subsequently entail additional costs for the Sub-Fund, such as the related transaction fees.

5. Profile of Typical Investor

The Sub-Fund is a high risk vehicle aiming to provide capital appreciation in euro terms. It will be suitable for investors seeking to increase their principal over the medium-long term by investing in emerging markets securities with a high potential for appreciation. The recommended duration of investment for investors is at least 5 years.

6. Risk Profile

The Sub-Fund is subject to the specific risks linked to investment in equity securities, debt securities, emerging markets and to market volatility linked to the investment in derivative instruments, as well as foreign currencies exposure. Please refer to the sections headed "Investment Restrictions" and "Risk Management Process" above for further details in this connection.

DISCLAIMER: Past performance is not indicative of future results. Shares' price falls as well as rises. Accordingly there is no guarantee that investors will recover the total amount initially invested. There can be no assurance that the Sub-Fund will achieve its objectives.

7. *Distribution Policy*

This Sub-Fund pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out.

Dealing in shares after the Initial Offering Period: Subscription, redemption and conversion requests should be made in the form as specified in Section “*Issue, Redemption and Conversion of Shares*” in the main part of the Prospectus.

8. *Specific Risk Details*

See Appendix II – Sub-Funds specific risk details

4. Investment Objective and Policy

This Sub-Fund aims to provide capital appreciation over time in euro by investing mainly in: equity, equity related securities and equity derivatives through long positions (including futures on indices and stocks).

The Sub-Fund's investment universe will, in terms of geographic scope, be focused on countries and markets included into the MSCI North America Index, and in related currencies, with no restriction in

terms of economic sector.

The Sub-Fund may secondarily invest in equity and debt securities (with a minimum rating of BB/Ba2) issued by worldwide issuers and denominated in related currencies.

If the Investment Manager considers this to be in the best interest of the shareholders, the Sub-Fund may, for defensive purposes and on a temporary basis, also hold cash deposits and Money Market Instruments up to 100 % of its total net assets.

Within the limits set forth in the investment restrictions, the Sub-Fund may use derivative techniques and instruments for hedging or for other purposes. The aggregate sum of commitment arising from the use of these instruments shall not exceed the value of the Sub-Fund's total net assets.

In particular, the Sub-Fund may use call or put options and/or futures and/or forward contracts on transferable securities, interest rates, indices, government bonds and other financial instruments traded on Regulated Markets.

- In order to meet the investment objective of the Sub-Fund set out above, the Sub-Fund may also invest up to 10% of its total net assets in units of UCITS and/or other UCIs and/or ETFs qualifying as UCITS or respectively UCIs, as per the meaning of articles 41 (1) e) and 46 of the 2010 Law.

The Sub-Fund shall not be charged for subscription or redemption fees on account of its investments in such UCITS, UCIs and ETF, for which Casa4Funds SA acts as management company nor is linked to such UCITS/UCIs or ETF's management company within the meaning of article 46(3) of the 2010 Law.

Due to increased volatility of the markets, the portfolio of the Sub-Fund may have a high turnover ratio, which may subsequently entail additional costs for the Sub-Fund, such as the related transaction fees.

5. Profile of Typical Investor

The Sub-Fund is a high risk vehicle aiming to provide an absolute return in euro terms. It will be suitable for investors seeking to increase their principal over the medium-long term by investing in North American securities with a high potential for appreciation. The recommended duration of investment for investors is 3 to 5 years.

6. Risk Profile

The Sub-Fund is subject to the specific risks linked to investment in equity securities, debt securities and to market volatility linked to the investment in derivative instruments as well as foreign currencies exposure. Please refer to the sections headed "Investment Restrictions" and "Risk Management Process" above for further details in this connection.

DISCLAIMER: Past performance is not indicative of future results. Shares' price falls as well as rises. Accordingly there is no guarantee that investors will recover the total amount initially invested. There can be no assurance that the Sub-Fund will achieve its objectives.

7. *Distribution Policy*

Distribution policy: This Sub-Fund pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out.

Dealing in shares after the Initial Offering Period: Subscription, redemption and conversion requests should be made in the form as specified in Section “*Issue, Redemption and Conversion of Shares*” in the main part of the Prospectus.

8. *Specific Risk Details*

See Appendix II – Sub-Funds specific risk details

FINLABO INVESTMENTS SICAV – DYNAMIC EQUITY

Information contained herein should be read in conjunction with the full text of the Prospectus.

1. Reference Currency

EUR

2. Performance Fee

Applicable to all Share classes

The Performance Fee will amount to 20% p.a. of return of the relevant Share Class that exceeds the greater of the Hurdle Rate (calculated as the sum of the average Eonia rate + 400 basis points) and the High Watermark (calculated as the return necessary since the start of the calendar year to equal the Net Asset Value per Share of the relevant Share Class on the last Valuation Day of the last calendar year in which a Performance Fee was charged).

On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made when appropriate, and the Performance Fee is paid where applicable for each class of the relevant Sub-Fund as described below.

In addition, the Performance Fee will be calculated taking into account movements on the capital and applying the Crystallization Principle so that the Performance Fee is calculated on the basis of the Net Asset Value after deduction of all expenses, liabilities, and Management Fees (but not Performance Fee), and is adjusted to take account of all subscriptions and redemptions. If Shares are redeemed on any day before the last day of the period for which a Performance Fee is calculated, while provision has been made for Performance Fee, the Performance Fees for which provision has been made and which are attributable to the Shares redeemed will be paid at the end of the period even if provision for Performance Fees is no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of Performance Fees.

Payment of the Performance Fee, which is calculated on 31st December of each year and accrued on a daily basis, is made at the beginning of the following year.

3. Fee Schedule, available Share Classes and main features

See Appendix I – Sub-Funds features

4. Investment Objective and Policy

This Sub-Fund aims to provide an absolute return over time in euro by investing mainly in equity, equity related securities and equity derivatives through long positions (including futures on indices and stocks).

The Sub-Fund may secondarily invest in debt securities with a minimum rating of BB/Ba2.

The Sub-Fund's investment universe will, in terms of geographic scope, be focused on Europe, and in terms of currency, on Euro denominated securities, with no restriction in terms of economic sector.

The Sub-Fund may secondarily invest in equity and debt securities issued by worldwide issuers and denominated in currencies other than Euro.

If the Investment Manager considers this to be in the best interest of the shareholders, the Sub-Fund may, for defensive purposes and on a temporary basis, also hold cash deposits and Money Market Instruments up to 100 % of its total net assets.

Within the limits set forth in the investment restrictions, the Sub-Fund may use derivative techniques and instruments for hedging or for other purposes. The aggregate sum of commitment arising from the use of these instruments shall not exceed the value of the Sub-Fund's total net assets.

In particular, the Sub-Fund may use call or put options and/or futures and/or forward contracts on transferable securities, interest rates, indices and other financial instruments traded on Regulated Markets.

In order to meet the investment objective of the Sub-Fund set out above, the Sub-Fund may also invest up to 10% of its total net assets in units of UCITS and/or other undertakings for collective investment including Exchange Traded Funds (ETFs), qualifying as UCITS or respectively UCIs, as per the meaning of articles 41 (1) e) and 46 of the 2010 Law.

The Sub-Fund shall not be charged for subscription or redemption fees on account of its investments in such UCITS, UCIs and ETF, for which Casa4Funds SA acts as management company nor is linked to such UCITS/UCIs or ETF's management company within the meaning of article 46(3) of the 2010 Law.

Due to increased volatility of the markets, the portfolio of the Sub-Fund may have a high turnover ratio, which may subsequently entail additional costs for the Sub-Fund, such as the related transaction fees.

5. Profile of Typical Investor

The Sub-Fund is a medium/high risk vehicle aiming to provide an absolute return in euro terms. It will be suitable for investors seeking to increase their principal over the medium-long term by investing in securities with a high potential for appreciation. The recommended duration of investment for investors is 3 to 5 years.

6. Risk Profile

The Sub-Fund is subject to the specific risks linked to investment in equity securities, debt securities and to market volatility linked to the investment in derivative instruments. Please refer to the sections headed "Investment Restrictions" and "Risk Management Process" above for further details in this connection.

DISCLAIMER: Past performance is not indicative of future results. Shares' price falls as well as rises. Accordingly there is no guarantee that investors will recover the total amount initially invested. There can be no assurance that the Sub-Fund will achieve its objectives.

7. *Distribution Policy*

This Sub-Fund pursues a policy of achieving capital growth and reinvests income earned; as a result, no dividend shall be paid out.

Dealing in shares after the Initial Offering Period: Subscription, redemption and conversion requests should be made in the form as specified in Section “*Issue, Redemption and Conversion of Shares*” in the main part of the Prospectus.

4. Investment Objective and Policy

This Sub-Fund aims to provide an absolute return over time in euro by investing mainly in: equity, equity related securities, equity derivatives through long positions, debt securities (floating and fixed rate), regular and contingent convertible bonds, and debt derivatives through long positions.

The Sub-Fund's investment universe will, in terms of geographic scope, be focused on Europe, and in terms of currency, on Euro denominated securities, with no restriction in terms of economic sector.

The Sub-Fund may secondarily invest in cash, equity and debt securities issued by worldwide issuers and denominated in currencies other than Euro. If the Investment Manager considers this to be in the best interest of the shareholders, the Sub-Fund may, for defensive purposes and on a temporary basis, also hold cash deposits and Money Market Instruments up to 100 % of its total net assets. Within the limits set forth in the investment restrictions, the Sub-Fund may use derivative techniques and instruments for hedging or for other purposes. The aggregate sum of commitment arising from the use of these instruments shall not exceed the value of the Sub-Fund's total net assets. In particular, the Sub-Fund may use call or put options and/or futures and/or forward contracts on transferable securities, interest rates, indices, government bonds and other financial instruments traded on Regulated Markets or OTC ("Over the counter").

In order to meet the investment objective of the Sub-Fund set out above, the Sub-Fund may also invest:

- Up to 25% in Exchange Traded Commodities ("ETC") qualifying as transferable securities within the meaning of articles 41 (1) of the 2010 Law, article 2 of the Grand Ducal Regulation of February 8th 2008 together with point 17 of the CESR guidelines 07/044 b, and provided that there is no embedded derivatives as per the meaning of article 10 of such regulation. In addition, no physical delivery should be considered;
- Up to 10% of its total net assets in units of UCITS and/or other undertakings for collective investment including Exchange Traded Funds (ETFs), qualifying as UCITS or respectively UCIs, as per the meaning of articles 41 (1) e) and 46 of the 2010 Law.
- Up to 10% of its total net assets in contingent convertible bonds and term deposits.

The Sub-Fund shall not be charged for subscription or redemption fees on account of its investments in such UCITS, UCIs and ETF, for which Casa4Funds S.A. acts as Management Company nor is linked to such UCITS/UCIs or ETF's management company within the meaning of article 46(3) of the 2010 Law. Due to increased volatility of the markets, the portfolio of the Sub-Fund may have a high turnover ratio, which may subsequently entail additional costs for the Sub-Fund, such as the related transaction fees.

5. Profile of Typical Investor

The Sub-Fund is a Medium risk vehicle aiming to provide an absolute return in euro terms. It will be suitable for investors seeking to increase their principal over the medium-long term by investing in a actively managed balanced portfolio. The recommended duration of investment for investors is 2 to 3 years.

6. Risk Profile

The Sub-Fund is subject to the specific risks linked to investment in equity securities, debt securities

(including high yield and not rated securities) and to market volatility linked to the investment in derivative instruments as well as foreign currencies exposure. Please refer to the sections headed “Investment Restrictions” and “Risk Management Process” above for further details in this connection.

DISCLAIMER: Past performance is not indicative of future results. Shares’ price falls as well as rises. Accordingly there is no guarantee that investors will recover the total amount initially invested. There can be no assurance that the Sub-Fund will achieve its objectives.

7. *Distribution Policy*

Distribution policy:

This Sub-Fund issues both accumulation and distribution shares as further detailed in Section “*Distribution Policy*” of this Prospectus.

Dealing in shares after the Initial Offering Period: Subscription, redemption and conversion requests should be made in the form as specified in Section “*Issue, Redemption and Conversion of Shares*” in the main part of the Prospectus.

8. *Specific Risk Details*

See Appendix II – Sub-Funds specific risk details

9. *Initial Offering Period*

The Sub-Fund will be launched upon first subscription at any moment upon decision of the Board of Directors.

APPENDIX II – SUB-FUNDS SPECIFIC RISK DETAILS

	Global Exposure approach used	Relative benchmark⁵	Expected level of leverage⁵ (Sum of Notionals)	Higher leverage⁵ Levels (Sum of Notionals)	Expected level of leverage⁵ (Commitment)	Higher leverage⁵ levels (Commitment)
DYNAMIC EMERGING MARKETS	Commitment	N/A	N/A	N/A	N/A	N/A
DYNAMIC US EQUITY	Commitment	N/A	N/A	N/A	N/A	N/A
DYNAMIC EQUITY	Commitment	N/A	N/A	N/A	N/A	N/A
DYNAMIC ALLOCATION	Commitment	N/A	N/A	N/A	N/A	N/A

⁵ If the VAR approach is used. The level of leverage may vary over time. Investors must be aware of the possibility of higher leverage levels under certain circumstances.

The Commitment approach is based on the sum of notionals of Financial Derivatives Instruments (“FDI”) applying Netting and Hedging techniques. The FDI could be used for leverage or hedging as well as to create synthetic positions on securities that could not be bought directly on the market.
